

SAFETY DATA SHEET

1. Identification

1. Identification			
Product identifier	Quasar		
Other means of identification			
Product code	F136022, 25, 38		
Recommended use	Floor Finish		
Recommended restrictions	None known.		
Manufacturer/Importer/Supplier	Distributor information		
Manufacturer			
Company name	Franklin Cleaning Technology		
Address			
	Great Bend, KS 67530 United States		
Telephone	Customer Service	(800) 810-4829	
E-mail	Not available.		
Emergency phone number	CHEMTREC	(800) 424-9300	
	Emergency	(620) 792-1711	
	24 hour Emergency	(800) 424-9300	
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Not classified.		
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
Hazard symbol	None.		
Signal word	Warning		
Hazard statement	May cause mild eye and skin irritation. Harmful to aquatic life.		
Precautionary statement			
Prevention	Avoid release to the environme	ent.	
Response	Wash hands after handling.		
Storage	Store away from incompatible materials.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Hazard(s) not otherwise classified (HNOC)	None known.		
Supplemental information	% of the mixture consists of co	mponent(s) of unknown acute hazards to the aquatic environment.	

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
DIETHYLENE GLYCOL MONOETHYL ETHER		111-90-0	5 - < 10
TRIBUTOXYETHYLPHOSPHATE		78-51-3	1 - < 3
Other components below reportable levels	3		90 - 100

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation

If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.

Skin contact	Rinse skin with water/shower. Get medical attention if irritation develops and persists.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting	Move containers from fire area if you can do so without risk.

equipment/instructions Specific methods General fire hazards Use standard firefighting procedures and consider the hazards of other involved materials. No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Use care in handling/storage. Avoid release to the environment. Do not empty into drains.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits US. Workplace Environmental Exposure Level (WEEL) Guides Components Value DIETHYLENE GLYCOL MONOETHYL ETHER (CAS 111-90-0) TWA 140 mg/m3 Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures, s	such as personal protective equipment
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear suitable protective clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance				
Physical state	Liquid.			
Form	Liquid. Emulsion			
Color	White.			
Odor	Not available.			
Odor threshold	Not available.			
рН	8.5 - 9.5			
Melting point/freezing point	Not available.			
Initial boiling point and boiling range	212 °F (100 °C) estimated			
Flash point	204.8 °F (96.0 °C) estimated			
Evaporation rate	Not available.			
Flammability (solid, gas)	Not available.			
Upper/lower flammability or explosive limits				
Flammability limit - lower (%)	Not available.			
Flammability limit - upper (%)	Not available.			
Explosive limit - lower (%)	Not available.			
Explosive limit - upper (%)	Not available.			
Vapor pressure	0.01 hPa estimated			
Vapor density	Not available.			
Relative density	Not available.			
Solubility(ies)				
Solubility (water)	Not available.			
Partition coefficient (n-octanol/water)	Not available.			
Auto-ignition temperature	400 °F (204.44 °C) estimated			
Decomposition temperature	Not available.			
Viscosity	Not available.			
Other information				
Density	8.64 - 8.74 lb/gal			
Percent volatile	74.93 % estimated			
Specific gravity	1.04 - 1.05			
VOC (Weight %)	0 % estimated			

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Ingestion	Expected to be a low ingestion hazard.
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Acute toxicity	Not available.	
Product	Species	Test Results
Quasar (CAS Mixture)		
Acute		
Oral		
LD50	Mouse	112.191 g/kg estimated
	Rat	24445.1992 mg/kg estimated
Other		
LD50	Mouse	6200.4824 mg/kg estimated
	Rat	37510.6563 mg/kg estimated
* Estimates for product ma	ay be based on additional component	data not shown.
Skin corrosion/irritation	Prolonged skin contact may ca	use temporary irritation.
Serious eye damage/eye irritation	Direct contact with eyes may ca	ause temporary irritation.
Respiratory or skin sensitiza	tion	
Respiratory sensitization	n Not available.	
Skin sensitization	This product is not expected to	cause skin sensitization.

Respiratory sensitization	Not available.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
OSHA Specifically Regulated	d Substances (29 CFR 1910.1001-1050)
Not listed.	
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
Chronic effects	Prolonged inhalation may be harmful.

12. Ecological information

Product		Species		Test Results
Quasar (CAS Mixture)				
Aquatic				
Fish	LC50	Fish		415.6496 mg/l, 96 hours estimated
* Estimates for product may	be based on add	tional compone	nt data not shown.	
ersistence and degradability	No data is ava	ailable on the de	gradability of this product.	
ioaccumulative potential	No data availa	able.		
Partition coefficient n-octa DIETHYLENE GLYCOL MOI TRIBUTOXYETHYLPHOSP	NOETHYL ETHE		-0.54 3.75	
obility in soil	No data availa	able.		
ther adverse effects				letion, photochemical ozone creation) are expected from this component.
3. Disposal consideratio	ons			
isposal instructions	this material to with chemical	o drain into sewe or used contain	ers/water supplies. Do not	censed waste disposal site. Do not allow contaminate ponds, waterways or ditches intainer in accordance with
ocal disposal regulations	Dispose in ac	cordance with a	I applicable regulations.	
azardous waste code	The waste co disposal com		signed in discussion betwe	een the user, the producer and the waste
laste from residues / unused	Dispose of in	accordance with	local regulations. Empty	containers or liners may retain some

productsproduct residues. This material and its container must be disposed of in a safe manner (see:
Disposal instructions).Contaminated packagingEmpty containers should be taken to an approved waste handling site for recycling or disposal.
Since emptied containers may retain product residue, follow label warnings even after container is
emptied.

14. Transport information

DOT

Not regulated as dangerous goods.

ΙΑΤΑ

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

15. Regulatory information

US federal regulations

This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are listed or exempted from listing on the U.S. EPA TSCA Inventory List.

TSCA Section 12(b) Export Not regulated.	Notification (40 CFR 707, Sub	pt. D)
