#### **VII. Hazardous Ingredients Information**

The identity of individual components of this mixture is proprietary information and is regarded to be a trade secret. This mixture contains no suspected carcinogens as reported by NTP, ACGIH, OSHA or IARC at 0.1% or Greater. One or more of the components present in greater than 1% concentration may present the following health effects based on evaluation of the individual components: May cause eye, skin or respiratory irritation.

The above effects are based on evaluation of individual components and the relevancy to the mixture as a whole or to humans is unknown. Excessive exposure may cause similar effects.

In humans, one or more of the individual components may cause the following health effects: May be irritating to eyes and skin.

#### **VIII. Personal Protection**

Eyes: The use of safety glasses is recommended. If a material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended.  
Respiratory: In well-ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas, the use of NIOSH approved respiratory protection is recommended.  
Equipment Apparel: The use of chemical resistant gloves is recommended. Acceptable industrial hygiene practices should be maintained.  
Ventilation: Provide adequate ventilation. Use local exhaust fan if necessary.

## **IX. Storage and Handling**

It is recommended that this material be stored in a cool, well-ventilated area, avoiding open flames or other sources of ignition.

## **X. Spill, Release and Waste Disposal Procedures**

Spill or Release: Cover liquids with absorptive material. Sweep spilled material and discard in approved disposal container.

Disposal Procedures: Used containers may contain flammable or combustible residue. Dispose of in accordance with local, state and federal regulations.

## **XI. Toxic Substances and Control Act**

The Components of this product are found in the TSCA Inventory.

This product meets current RIFM/IFRA guidelines for:

Skin Contacting products up to a maximum concentration of 100%

Non-Skin contacting products up to a maximum concentration of 100%

## **XII. Superfund Amendments and Reauthorization Act (SARA) Title III Notice**

This product complies with TSCA inventory Requirements. The polymer component is eligible for the TSCA polymer exemption and, as such, is being manufactured/imported under the terms of the exemption at 40 CFR 723.250
