Big D Dumpster D plus C is formulated with special odor absorbing granules and *Citronella* (proven to deter annoying flying insects). This unique and safe formula works fast, is long-lasting and neutralizes odors on contact.

Use to quickly and effectively deodorize garbage dumpsters, trash cans/containers, compactors and garbage collection trucks. Simply shake or spread into or around dumpsters, garbage containers and musty areas.

Big D Dumpster D plus C is noncorrosive, safe to use and biodegradable, making it environmentally and user friendly.

Big D offers a complete line of products for thorough cleaning, disinfecting and odor control.

DUMPSTER D PLUS C

Formulated with Big D Deodorant and Citronella, it effectively controls malodors from trash containers. *Citronella is a natural ingredient known to deter annoying flying insects.*

Dumpster D plus C is a very economical and noncorrosive waste treatment product.

ORDERING INFORMATION:

Product No. 177

16 ounce shaker can
packed 12 per shipping case
(shipping weight 17 lbs.)

Product No. 178 - 25 lb. container

Product No. 3178 - 100 lb. container

TRASH CONTAINER ODOR MAINTENANCE

INITIAL PROCEDURE - The day the trash container is emptied, apply a liquid odor counteractant (Water Soluble Deodorant or Deodorant Concentrate) to all interior surfaces of the container. Spread 1 pound per 5 sq. ft. of floor space of Dumpster D +C, Granular Deodorant or Deodorant Powder on the floor of the trash container.

DAY 2 - Apply 8 ounces of product per 5 sq. ft. of floor space to contents of trash container.

DAY 4 - Apply 8 ounces of product to contents of trash container.

These procedures and the amount of product used will vary with the amount of trash in the container and the severity of the odor problem.

ODOR MANAGEMENT SYSTEMS FOR TRASH CONTAINERS

One of the major sources of public complaints is odors emanating from trash containers and trash collection areas. Big D offers a wide variety of products and systems to eliminate these odor problems.

ACTIVE SYSTEMS

Designed to work through diaphragm pumping systems, foggers, tank sprayers or trigger sprayers, these systems will provide the most effective application of liquid odor counteractants. By continually attacking the source of the odor, the problem will be eliminated.

Liquid deodorants designed to be applied in these systems are:

Water Soluble Deodorant – A highly effective liquid concentrate available in several fragrances.

Deodorant Concentrate – An economy grade liquid deodorizer.

Available in quarts, gallons and bulk.

PASSIVE SYSTEMS

For continuous deodorization and/or absorption. These products are manufactured from naturally occurring minerals or biodegradable substances. Products available are:

Dumpster D plus C – Deodorizes and deters flying insects and absorbs moisture.

Granular Deodorant – Destroys odors and absorbs moisture in one operation.

Deodorant Powder – An excellent method of dry deodorization.

These items are available in 1 lb. shaker cans and bulk containers.
