

DEO-GARD

Reduce slipping and tripping with **Big D's** new and improved **DEO-GARD** disposable mats, while still making restroom maintenance easier, faster and protecting from cross-contamination. New, innovative design and materials add many benefits to a product that has created energy and excitement throughout the Jan/San market.

Constructed with a heavier, high-friction, coefficient material, the new **Big D DEO-GARD** mat actually grips to CLEAN, DRY floors. No adhesive or velcro needed, eliminated by over-molding manufacturing technique. Together with its gripping action, absorbent core, lower profile and warp resistancy, the revolutionary mat substantially reduces slipping.

The new hexagon design grid quickly directs liquids into the absorbent core and allows the end-user to effortlessly see when the mat is soiled and needs replacing.

New polymers with increased flexibility conform easily to uneven floor surfaces and allow the soiled mat to easily be folded, rolled or even wadded up for effortless disposal.

Big D DEO-GARD disposable mats used under urinals and around toilets will neutralize odors by catching and quickly absorbing unwanted splashes and drips, protecting your floor from stain, discoloration and uric acid damage with a moisture barrier backing. Cross-contamination is prevented by eliminating the tracking of urine from the restrooms to other parts of the building.

Utilizing micro-fiber technology, liquids are quickly absorbed and retained within the core. The core will capture 2 ml of liquid for every square inch of material. When the mat is completely soiled simply toss it in the trash.

Great for use in schools/day cares, colleges/universities, churches, office buildings, malls, airports, bus/train stations, truck stops/service stations, highway rest areas, golf/country clubs, fitness centers, hospitals/health care facilities, factories, theaters, sport complexes/convention centers, casinos, restaurants, bars/night clubs.

Patent Pending.
