

Commercial DownDraft™ Fan

Whole Room Drying in Just Minutes

THE COMMERCIAL DOWNDRAFT FAN

Dry an average size room in just minutes with CFR's Downdraft™ drying technology! The CFR Downdraft™ fan is the most versatile air mover available with multiple positions for every drying need... including 360° Downdraft™ drying. Downdraft™ drying recycles the warmer air circulating at the top of a room, pulling it down, through the fan and blasting it out over every inch of the room, drying the carpet fast.

FASTER DRYING

The Downdraft Commercial Fan by CFR changes drying as we know it. No more leaving damp carpets to dry after you leave a job! The Downdraft's six-bladed precision pitched fan pulls warmer, drier air down, thorough the dryer, blowing it across the entire room for fast complete drying with only one dryer for the "total" room, and minimizes downtime in a room or facility.

NO MORE DRYING A ROOM, ONE SECTION AT A TIME

One Downdraft™ fan recycles warm air and will dry an entire room in as little as 15 minutes. Dryers or air-movers are typically spaced around a room in various positions to take advantage of walls and other surfaces to dry carpets as quickly as possible. A typical dryer has limited surface coverage and does not take advantage of the warm air at the top of a room.

VERSATILITY

The Commercial DownDraft Fan provides easy operation, versatility, innovative features and superior airflow for use in many different environments including:

- Hospitals and Healthcare Facilities
- Schools and Universities
- Hotels and Resorts
- Restaurants
- Commercial Office Buildings
- Retail Stores and Shopping Malls
- Industrial Facilities

Commercial DownDraft™ Fan

KEY FEATURES

- Downdraft™ recycling drying technology
- Easy to move from job to job
- 6-blade precision pitch fan
- Multiple-position versatility, Two-speeds
- Dry areas fast with more than 3500 CFM
- Stack up to four for easy storage or transporting

Dry an average sized room in just minutes with Downdraft™ technology.

Easy built-in cord wrap.

Standard telescopic handle.

Wheels for easy transporting.

6-blade precision pitch fan with high velocity motor for fast complete drying.

Stackable.

Four heavy-duty casters lift unit to optimum downdraft™ height.

PRODUCT SPECIFICATIONS

Model	10460A
Power/Amp	3.3
Speeds	2
Construction	Polyethylene
Power Cord	20'
Operating Positions	4
Handle	Molded, balanced
Sensors	Circuit breaker shutoff
Fan Blade	16.5"
Dimensions	27" x 17 1/2" x 24"
Weight	52 lbs.
Warranty	1 Year
