

Pro-Lite Upright Vacuum with HEPA

Lightweight Upright Vacuum:
Price, Performance and Pick Up

PROFESSIONAL 8 LB. HEPA VACUUM

Weighing just 8 pounds, the Pro-Lite has the power and durability to tackle the toughest commercial applications with the added benefit of reducing on the job injuries, repetitive motion disabilities and worker's compensation claims. The Pro-Lite will outlast and out clean other commercial lightweight vacuums. The Pro-Lite features dual fan technology for better cleaning, a huge top-loading paper bag, and a low profile that lays completely flat to reach under beds and other furniture. The Pro-Lite is built with tough polycarbonate materials and aluminum for long-lasting durability. Easy to maintain and simple to operate, the Pro-Lite delivers the perfect balance of durability, performance and weight.

HEPA FILTRATION FOR IMPROVED IAQ

The Pro-Lite Vacuum uses HEPA filters that capture 99.97% of airborne allergens for improved indoor air quality (IAQ), while also ensuring maximum airflow which is required for deep down carpet cleaning. The three-stage filtration system includes a unique, antimicrobial Enviro-

Clean disposable filter bag, a cloth outer filter bag, and a HEPA motor exhaust filter cartridge as standard. The Enviro-Clean disposable collection filter captures far more particles and allergens than conventional paper bags. Dust emissions are dramatically reduced over many competitive models.

VERSATILITY

The Pro-Lite provides easy operation, versatility, innovative features, ergonomic design and superior filtration for use in many different environments including:

- Hospitals and Healthcare Facilities
- Schools and Universities
- Hotels and Resorts
- Restaurants
- Commercial Office Buildings
- Retail Stores and Shopping Malls
- Industrial Facilities

Pro-Lite Upright Vacuum with HEPA
