

Raid[®]

Flying Insect Killer

For fast knockdown of flies, mosquitoes and a variety of insects by spraying directly.

Effective

- ▶ Kills flies in seconds
- ▶ Kills mosquitoes, small flying moths, gnats, wasps, fleas, roaches, water bugs, silverfish, crickets, ants, spiders, centipedes, sow bugs and carpet beetles
- ▶ For use indoors and outdoors
- ▶ No lingering chemical outdoor

Recommended For

- ▶ Lodging
 - ▶ Industrial
 - ▶ Government
 - ▶ Education
-

Use Overview

Raid® Flying Insect Killer kills flies, mosquitoes, gnats, Asian lady beetles, and other flying insects as they fly through the mist, so there is no need to spray them directly. Plus, it has a clean, pleasant scent with no lingering chemical odor.

Directions

▶ Shake before using. Point spray nozzle away from face and press button, holding container as upright as possible.

Indoors

- ▶ Remove pets, birds prior to application.
- ▶ Shake before using. Point spray nozzle away from face and press button, holding container as upright as possible.
- ▶ Flies, mosquitoes, small flying moths, Asian lady beetles, gnats, fruitflies: With **Raid® Flying Insect Killer** there is no need to spray directly at flying insects—the mist in the air will kill them. Close all doors and windows. Spray **Raid® Flying Insect Killer** up into the air with a sweeping motion, keeping about 3 feet from interior walls, fabrics, and furniture, until room is thoroughly misted.
- ▶ Do not remain in treated area. Keep room closed for 15 minutes. Ventilate room thoroughly before re-entry.
- ▶ For fast knockdown, spray directly at insects, keeping about 3 feet from interior walls, fabrics, furniture. In kitchens, be sure to treat areas that may attract these insects such as around windows, sinks, and garbage cans. Cover or remove exposed food, utensils, and food handling equipment.

- ▶ For residual control of insects, spray from a distance of about 18" from screens and around doors and windows where insects enter the house. Also, spray screens and doorways on patios. It is recommended to check for potential staining and damage in an inconspicuous place before complete treatment.
- ▶ *Wasps, hornets, yellow jackets*: Spray directly at stray wasps that enter building.

Outdoors

- ▶ *Flies, mosquitoes, small flying moths, Asian lady beetles, gnats, fruitflies, boxelder bugs*: To reduce annoyance of these insects, spray area when air is calm for best results. If a slight breeze is blowing, spray with the wind, allowing the spray to drift over the area to be treated, staying at least 4 feet from plants and bushes.
- ▶ Allow a couple of minutes for product to take effect. Give special attention to breeding areas such as garbage cans and compost piles. Treat these areas from a distance of about 18" when possible.
- ▶ When spraying in garages, be careful that spray does not contact painted surfaces of vehicles.

Be sure to read the product label for complete directions, precautions and additional information.

Product Specifications

Description	
Color/Form	Opaque aerosol
EPA Reg. No.	4822-513
Flash Point	< 20° F (< -7° C)
Scent	Characteristic
Shelf Life	2 years
Solubility	Negligible

Available Items

Product Code	Description/Package Size	Dilution
CB016605	12 x 15 oz. / 425 g	Ready-to-Use

Safety Reminder

Please make sure your employees read and understand the product label and Material Safety Data Sheet before using this product. The label contains directions for use, and both the label and MSDS contain hazard warnings, precautionary statements and first aid procedures.
