- ▶ Fragrance cartridge lasts 30 days before needing replacement

---

### Recommended For

- ▶ Food Service
  - ▶ Education
  - ▶ Lodging
- 

# Use Overview

**Glade® Plugs® Scented Gel** eliminates odors and freshens the air through the gradual release of light, pleasing fragrances of gently warmed fragrance-infused gel. One fragrance cartridge lasts up to 30 days.

## Directions for Use

- ▶ Peel open - Slowly remove the foil label from the fragrance cartridge using the peel tab. Do not remove or puncture the clear film protecting the fragrance concentrate. This film controls the release of concentrated fragrance ingredients.
- ▶ Insert refill - Hold the fragrance refill so the word "Glade®" is facing up. Then slide the narrow end of the refill into the warmer unit.
- ▶ Insert warmer into outlet - Insert into a 120-volt electrical outlet to gently warm the fragrance concentrate in the refill. Within minutes, the fragrance will begin to freshen your entire room.
- ▶ Insert the plug into the extra outlet - To take advantage of the extra outlet feature, simply insert a two-prong, non-grounded appliance that does not exceed 12 amps (1400 watts) into the warmer unit.
- ▶ Replace refill - As the fragrance cartridge freshens, it begins to dry and crack. When the concentrate is nearly gone it is time to replace the refill.
