The Dust Control Series provides a variety of buffing widths in a high powered propane machine. Available with your choice of Kawasaki or Robin engine. Run time is 5 to 6 hours for one propane cylinder. Emissions protected by 3-way catalytic muffler.

Leading the industry in concern for the environment and the safety of its operators; EAGLE by STONEKOR brings a new standard to each machine. All EAGLE machines come standard with Emissions Shut Down System and Kill Switch. Optional Electric Clutch is available.

All machines come standard with service alert (hour) meter, 360 degree floating swivel spin-on pad driver, adjustable handle, aluminum safety fill fuel cylinder with overfill prevention device (OPD) UL and DOT approved and two year warranty.
