**SK300** is a propane powered vacuum that works great at removing fine dust particulates like concrete dust. This 300 CFM propane powered vacuum is just the right size for two walk behind grinders. Matched perfectly to the task of dust control for a G & P ONE, this 17 Hp machine will run up to 6 hrs on a tank of propane. Carbon impregnated, anti-static housing with manual shaker.

Package includes: 3" inlet to 2" inlet adapter. This is a powerful, well built, industrial vacuum No cords, No generators, No problems!
