

*Equipment solid
to the KOR*

- Diesel powered
- Catalytic Purifier
- Increased productivity
- Endless run time
- No cords
- No generators
- Improved quality
- Wet or dry operation

StoneExtreme is far and above the grinding capacity of all other machines. It offers the ultimate in fast setup, ease of operation and is highly productive with capabilities for grinding and polishing stone, terrazzo and concrete - wet or dry.

"...for large open spaces, the Bobcat unit is a must. With its impressive size, it will drastically increase production and decrease labor. Given the tight time constraints that many companies face, we have been awarded several contracts over our competitors, in large part, due to the amazing amount of time saved and high quality of the Bobcat units. Taking all aspects into consideration, we have found that the Eagle line of concrete grinding equipment is miles ahead of its' competitors." - Customer Testimonial

StoneExtreme	
Production	8,000 sq ft per hour, per cut
Hydraulic	37 gpm hydraulic flow required
Drum Speed	1,980 rpm clockwise
Head Power	Three 23 hp hydraulic motors
Diamond Discs	36 diamond discs per head assembly
Head Speed	840 rpm counterclockwise diamond rotation
Head Sizes	Three 30" grinding/polishing heads
Head Pressure	933 lbs
Grinding Width	74"
Vacuum Ports	3
Dimensions of Heads	L 192" x W 77" x H 80"
Head Assembly Weight	2,975 lbs
Total Weight	12,800 lbs
Warranty	1 year
<i>All STONEKOR equipment EPA and CARB certified for exhaust emissions.</i>
