Low Profile Edger The STONEKOR Low Profile Edger gives you a machine that will be the difference between being awarded a job and missing out due to unfinished edgework. The Low Profile Edger offers the ultimate in quick and efficient grinding, honing and polishing of the edges of any job, terrazzo or concrete, wet or dry. The fixed head whether you choose the 13" or 19" can grind to within 1/4" of walls and obstacles. Outside edge is only 3.5 inches high allowing you to get under the edge of counters easily. The STONEKOR propane system continues with the Low Profile Edger which is propane powered and requires no high voltage generator and no bulky, dangerous electrical cords.

The Low Profile Edger comes standard with a Tach O Meter that displays engine hours, engine RPM and service intervals. Leading the industry in concern for the environment and the safety of its operators, Stonekor brings a new standard on each machine. All Stonekor machines come with an Emissions Shut Down System and Kill Switch. Aluminum safety fuel cylinder with over fill prevention device (OPD) UL and DOT approved and Two Year limited warranty.
