**Hospital Specialty Company
is a Charter Member of ISSA,
the International Sanitary
Supply Association**

800.321.9832 • www.hospeco.com

Since 1919, Hospital Specialty Company has been a pioneer and leader in personal care products for the public restroom. We began as the leader in vended feminine hygiene for women's restrooms and have grown into a leading manufacturer of personal care, cleaning, and protection products serving the sanitary supply industry, healthcare, foodservice and retail markets.

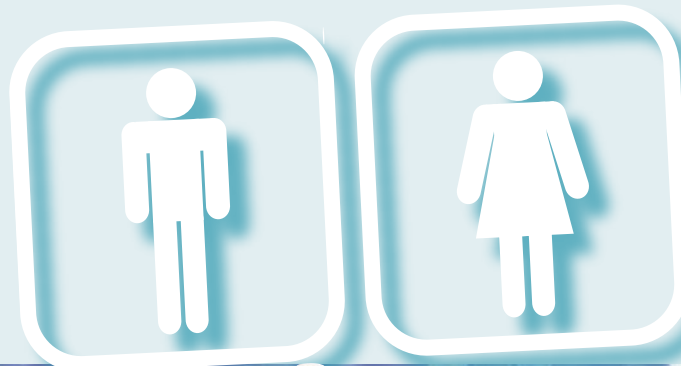

Today, HOSPECO® offers an integrated bundle of products for the public restroom featuring feminine hygiene systems, toilet seat covers, complete odor management systems, and a complete line of washroom accessories.

HOSPECO® is also one of the largest converters of non-woven wipers in North America. We offer a complete line of disposable wipers, textiles, pre-moistened

cleaning wipes and sorbents targeted to foodservice, industrial and healthcare markets.

As a leading manufacturer of disposable personal care products for the healthcare and retail markets, we offer complete lines of sanitary napkins, baby diapers and training pants, adult incontinence products, and pre-moistened wipes.

No one in the industry can offer as comprehensive a product line of value-added products for your diverse end-user customer base.

Hospital Specialty - a leader, innovator and educator - is proud to be a charter member of the ISSA. We believe that bringing the manufacturer and distributor together builds knowledge for the entire industry.

Sanitary Vending

Designed for the comfort and convenience of your patrons, Hospital Specialty's feminine hygiene products include all the important amenities your female patrons expect to find in a well-appointed restroom. Feminine hygiene products are the only restroom amenities for which your patron pays. Hospital Specialty feminine products typically vend for 25¢ and 50¢ per item. The higher the vending price, the more revenue generated to support the appropriate maintenance of your restrooms.

Hospital Specialty, the leader in vended feminine hygiene, offers a complete line of leading brand name feminine hygiene products and high quality dispensers, including Maxithins® Pads and Tampax® Tampons, two names that women know and trust. Hospital Specialty also manufactures

the Gards® brand of feminine napkins, a leading name in vended feminine protection for over 40 years. We're proud to feature Maxithins® Ultra Thin with Wings, the feminine napkin product preferred by today's women.

Vended sanitary napkins are available in two box sizes. Our most popular size box, the No. 4 box, which contains a folded pad, while the No. 8 size box contains a flat pad. Feminine hygiene dispensers vend one of these two size boxes. The following products are available with the No. 4 size box: 147A, MT-4, MT-200, MT480 and EG-4. You can vend any of these products from the dispensers that indicate the No 4 size box in this catalog. Our MT-8 and 248 products are in the No. 8 size box. Certain vendors will vend this size box.

Sanitary Napkins for Vending

- **147A:** Gards® Maxi Sanitary Napkin in No. 4 box. 250 units per case.
- **MT-4:** Maxithins® Maxi Sanitary Napkin in No. 4 box. 250 units per case.
- **MT-200:** Maxithins® Ultra Thin Maxi with Wings in No. 4 box. 200 units per case.
- **MT480:** Maxithins® 4N4 channel maxi pad in No. 4 box. 200 units per case.
- **248:** Gards® Maxi Sanitary Napkin in No. 8 box. 250 units per case.
- **MT-8:** Maxithins® Maxi Sanitary Napkin in No. 8 box 250 units per case.
- **EG-4:** Enviro Gards® Flushable Ultra Thin Maxi in No. 4 box. 125 units per case.
- **555-R:** Maxithins® Pantishields in vending box. 200 units per case.
- **MT-555:** Maxithins® Pantiliner in vending in box. 200 per case.

Tampax® For Vending

Tampax® is the registered trademark of Procter & Gamble, Inc.

Tampax® Tampons

Hospital Specialty is proud to be a distributor of Tampax tampons through vending machines for over 50 years. Individually wrapped and in vending tube. Tampax® is the name more women trust.

- **T500:** 500-count for vending
- **T200V:** 200-count for vending

Maxithins®: HOSPECO's Tampon Alternative!

Individually wrapped, in regular or super absorbency.

- **MT500:** 500-count regular absorbency for vending (in vending tube), individually wrapped
- **MTB500:** 500-count regular absorbency bulk tampons, individually wrapped
- **MTB-500S:** 500-count super absorbency bulk tampons, individually wrapped

Maxithins® Comfort Plus tampons are available in bulk pack (non-vending) for institutional needs. Ask your representative for complete details.

Hospital Specialty offers a complete line of vendors designed to dispense products shown here. See the next four pages for complete details!

Talk to your HOSPECO® Representative about the Real Value of a Quarter and learn how to increase vendor revenue!

HOSPECO® Vendors

The touch-free restroom just got even more sanitary! First, we introduced the Dual 1 Vendor to the industry, then the ED-1 vendor with flashing empty indicators and now, the most ADA-friendly and the only fully automatic vendor in the industry...

The A1-50 Vendor

"Automatic" Dual Dispenser – 50¢ vend, featuring our Maxithins® Ultra Thin with Wings Sanitary Napkin and Tampax® Tampons (will also vend any standard #4 size sanitary napkin box).

ADA friendly

The only vendor in the industry that extends only 4" from the wall.

Dimensions: 27.8" x 15.2" x 4" Wt: 37.5 lbs.

Hands Free Operation

Simply insert 2 quarters and the product automatically dispenses at the bottom. No external coin mechanisms requiring twisting or turning.

- If the machine is empty the quarters automatically eject
- Coin return button in case the user changes her mind or coins do not eject after the first quarter
- Extra sturdy spiral locks for increased security
- Runs on 3 'D' cell battery pack provided - approximately 3,000 vends per battery pack
- Capacity: 20 No. 4 size box sanitary napkins, 30 tampons
- Steel casing for extra security

Accepts only quarters, all other coinage ejects at the bottom

PB1-50 Push Button Dual Vendor

Featuring 50¢ vend, featuring "Easy Load" refilling. Totally New Dispenser design – Product actually fills on the backside of the door for easier maintenance.

- Capacity: 20 No. 4 size box sanitary napkins, 26 tampons
- Simple, Easy Push Button operation
- No coin mechanism to twist or turn
- Accepts only quarters, all other coinage ejects at the bottom
- Last product to vend from either channel activates empty indicator
- Empty column will not accept quarters
- Empty indicator resets with each new refill
- Simpler more functional design, fewer parts. No weights required
- Larger Coin Box with Lock
- Single door lock • Slimmer design: Less than 5" from the wall
- Dimensions "26" x 12" x 4.5" • Can be changed to 25 cent vend if required

E-Vendor Feminine Hygiene Dispensing System

Our popular Dual-1 vendor with an important innovation- an electronic flashing empty indicator. When out, a bright red light flashes EMPTY, alerting maintenance personnel that it is time to restock the vendor. This electronic signal helps eliminate the problem of an empty vendor and a dissatisfied patron as well as loss of revenue. Requires 4 'AA' Batteries

- ED1: E-Vendor Electronic Dual1 with LED "empty" display indicator, Capacity: 15 sanitary napkins (No. 4 size box) and 25 tampons with storage

MT1-SS

Enviro Gards® Breakdown:

How the breakdown works: In use, Enviro Gards® Flushable Ultra Thin Pads provide superior comfort and performance compared to full-size maxi pads. The combination of cold water and flushing agitation instantaneously begins a breakdown of product integrity, reducing it to a flushable state. Once it reaches a septic or sewerage system, requisite bacteria complete the biodegradable cycle.

These action photographs show how quickly an Enviro Gards® napkin disperses in water. They depict a normal flushing action and show the napkin breaking into small pieces. The coverstock loses its integrity but tends to remain intact. However, its volume is so small, typically no greater than toilet tissue,

that it poses no problems when flushing. The dispersed napkin enters the sewage system and commences degradation when in contact with micro-organisms. There is no residual material to cause any problems to the sewage system or to any location where sludge is deposited.

Feminine Hygiene Waste Receptacles and Liners

Hospital Specialty offers a full line of Health Gards® Waste Receptacles and Liners. Receptacles are available in a variety of styles from white metal or poly with hinged lid to swing-type, double entry. Health Gards® Toilet Seat Covers & Dispensers

HG-2 White ABS Plastic Quarter-Fold Toilet Seat Cover Dispenser and HG-QTR-5M Quarter-Fold Toilet Seat Cover refill

Health Gards® Toilet Seat Covers are very cost-effective, hygienic way to cover public toilet seats. Compare the sloppy and expensive alternatives of lining the seat with toilet paper or paper towels.

Health Gards® Toilet Seat Covers

Health Gards® Toilet Seat Cover Refills are available in the standard half-fold format which accommodates most restroom stalls or quarter-fold format for very small stall areas, especially transportation use.

- **HG-5000:** (5000 count/case), half-fold seat cover, packed 20 sleeves of 250
- **HG-2500:** (2500 count/case), half-fold seat cover, packed 10 sleeves of 250
- **HG-1000:** (1000/case), half-fold seat cover, packed 4 sleeves of 250
- **HG-QTR-5M:** (5000/case count), quarter-fold seat covers, packed 25 sleeves of 200
- **DS-5000:** Discreet Seat™ Import (5000 count/case), half-fold seat cover, packed 20 sleeves of 250

HG-1-2 White ABS Toilet Seat Cover Dispenser and HG-5000 Half-fold Toilet Seat Covers

DS-5000 Discreet Seat™ Import Half Fold Toilet Seat Covers

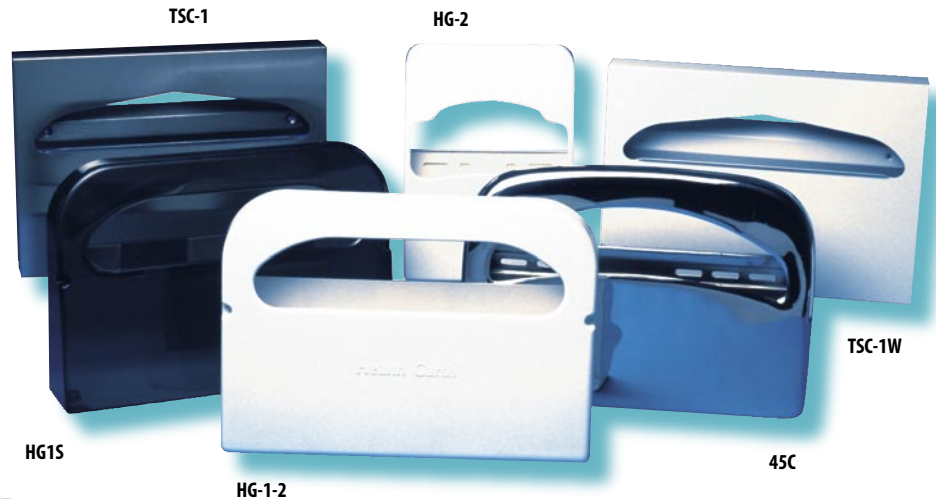

For environmentally concerned customers, Hospital Specialty offers Health Gards® "GREEN" Toilet Seat Covers which are manufactured from recycled paper. Shown with our most popular vendor, HG-1-2.

- **GREEN-5000:** (5000 count/case), packed 20 sleeves of 250
- **GREEN-2500:** (2500 count/case), packed 10 sleeves of 250
- **GREEN-1000:** (1000/case), packed 4 sleeves of 250
- **GRN-QTR-5M:** Quarter-fold seat covers (5000/case count), packed 25 sleeves of 200

Dispensers

Health Gards® Dispensers range from the popular high impact white styrene to chrome plated or stainless steel dispensers available in surface mounted or recessed styles.

- **HG-1-2:** White Plastic, Half-Fold Dispenser
- **HG15:** Smoke-look plastic, Half-Fold Dispenser
- **45C:** Chrome Metal, Half-Fold Dispenser
- **TSC-1:** Stainless Steel, Half-Fold Dispenser
- **TSC-1W:** White Metal, Half-Fold Dispenser
- **HG-2:** White Plastic, Quarter-Fold Dispenser

Health Gards® SP (Sanitary PolyPak) Toilet Seat Covers

Patent-pending Sanitary PolyPak is the ultimate answer for keeping toilet seat covers fresh, sanitary and moisture-free.

- Each 250-count, half-fold Health Gards® SP Sanitary PolyPak arrives sealed for protection.
- Fits all standard half-fold dispensers.
- Case takes up less space and can be stored anywhere (even in a humid environment) with no concern about wetness or moisture penetrating the sealed package.
- Eliminates the chance for crushed cartons
- Health Gards® SP ships in a smaller case cube than traditional cardboard sleeves.
- No glue or staples
- Health Gards® SP is available in 5,000 count (SP-5000), 2,500 count (SP-2500) and 1,000 count (SP-1000) cases.

80004EA

To Use: Simply dispense onto toilet tissue (typically two pushes), wipe the seat, and flush the toilet tissue away. Be seated.

Health Gards® Toilet Seat Cleaner

A specially formulated alcohol based cleaning solution for the toilet seat that dispenses as a fine mist and leaves a light, pleasing scent.

Health Gards® Cleaner Dispenser

- Discreet design, easy to install and to maintain
- Pictorial instruction for use on face panel
- Attractive white and blue color
- Hidden locking mechanism
- Can be mounted to the walls using tape or anchors and screws
- Guaranteed for life, except for vandalism
- Packed 12 dispensers per case

Health Gards® Toilet Seat Cleaner

Item #86300

- Solution contains a high percentage of alcohol and is pleasantly scented
- Solution applies evenly to toilet seat
- Solution cleans quickly and evaporates instantly
- Safe for use on any style toilet seat
- Each 300 ml pouch contains 1,500 sprays, approximately 750 applications
- Packed 6 / 300 ml pouches per box, 6 boxes per case.

Duo-San™ Dispenser

Made of tough, flexible and easy to clean polypropylene and ABS, the dispenser can be mounted to a wall with either tape, or anchors and screws. There are no moving parts in the system, providing many years of trouble-free operation.

Duo-San™ Fluid

Duo-San™ Fluid has been developed to meet the needs of public and staff restrooms to save time, money and labor by providing supplemental cleaning, scale prevention and odor control in between regular janitorial maintenance of restroom fixtures.

08506 or 08507

08501

- **Fragrance Circulation**
- **Cleaning, Scale Prevention**
- **Odor Control**

In-Line Cleanser and Scale Preventers

The surfactant and quaternary compounds in the specially-formulated Duo-San™ Fluids keep the urinal and toilet bowl surfaces clean and free of odor-causing deposits. Duo-San™ Fluids are manufactured with a sequestering agent which chelates calcium, iron and metallic salts in hard water, preventing them from causing scale deposits on porcelain surfaces.

Check out our four-page Duo-San™ catalog for complete product information.

The Real Meaning of Odor Management

Restroom odor management systems from Hospital Specialty Company **work in harmony** to provide your patrons with a clean and pleasant restroom environment. Patrons will be likely to return to an establishment that pays attention to the details in the restroom.

The Key ingredient in Health Gards® odor management products is **NEUTREX®**, the “smart” odor neutralizer. A specially formulated compound that actually seeks out malodors for the purpose of neutralizing them.

And, in addition, most of our odor management products are **“fragrance compatible.”** That means you don’t have to settle for a lemon aerosol air

freshener in the same restroom with a cherry urinal block while using an apple-scented surface deodorizer to clean the counters. You can **match fragrances** for a pleasing scent in the restroom while providing total odor management.

At Hospital Specialty, we take odor management seriously. That’s why we developed this **comprehensive line** of odor fighting **products** to solve any malodor problem. We’ve broken down odor management into **three steps:**

1. **Surface Odor Control**
2. **Restroom Odor Control**
3. **Continuous Deodorization**

Neutrex® is the registered trademark of Aroma Tech, Inc.

Health Gards® Surface Odor Control

Combating surface odors is easy with versatile Health Gards® Concentrated Liquid Odor Counteractants, available in four pleasing fragrances. The water soluble deodorants are tough on organically-based odors, and available in four fragrances. To quickly contain a liquid spill and the associated odor, Health Gards® Powder Absorbent converts the liquid to a solid for easy cleanup.

Health Gards® Liquid Water Soluble Deodorants

A full line of water soluble deodorants in four fragrances.

- Economical, Versatile Odor Eliminators
- Easy-to-use concentrate- just add 2 ounces per gallon of water to eliminate odors virtually anywhere.
- Safe, non-toxic and biodegradable
- Use in washrooms, carpet shampoos, trigger sprays, or add to mop water
- Safe for use on new generation carpets
- Choose from four fragrances: Apple, Mint, Lemon and Cherry
- Available in one (1) gallon (ships 4 per case) and one (1) quart (ships 12 per case)

Health Gards® Bio Enzyme Deodorant

- Breaks down and digests organic waste
- Bacteria/enzyme action eliminates the source of organic odors including urine, vomit, etc.
- Use on any water surface which has odors or stains caused by organic matter
- Nontoxic
- Available in one (1) gallon (ships 4 per case) and one (1) quart (ships 12 per case) containers
- Pails and drums available on request

Health Gards® Concentrated Powder Absorbent

- Absorbs 100 times its weight
- Liquid spills are instantly transformed into semi solids while the associated malodor is neutralized
- Ideal for nuisance and body fluid cleanup in institutional and industrial locations
- Available in convenient, easy-to-use 16 ounce shaker can
- Packed 12 per case

08160

Health Gards® Carpet And Room Deodorizing Powder

- Eliminates odors and freshens rooms each time you vacuum. Deodorizes rugs and rooms. Reduces static electricity.
- Clean, fresh fragrance
- Nontoxic, safe for all carpets
- Available in convenient, easy-to-use 15-ounce shaker can
- Packed 12 per case

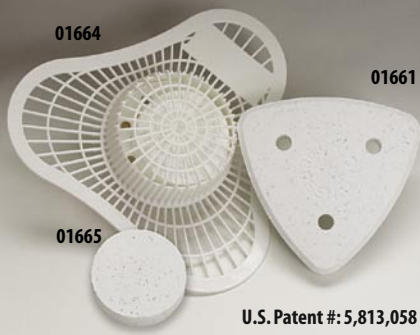

08166

Health Gards® Industrial Wick Bottles

- Super concentrated fragrance wick bottles offer continuous odor control anywhere.
- Water-based liquid formula
- One-oz. glass bottles fit most cabinets
- Available in Lemon and Neutral
- Low V.O.C.'s

01664

01661

01665

U.S. Patent #: 5,813,058

Chloroscreen® is the registered trademark of Zentec, Inc.

A New Deodorizing Technology For the Urinal:

Chloroscreen® – Dissolvable Urinal Screen with Bleach

- Unlike para which should not sit in a dry urinal because it dissipates in air, and non-para which should not sit in standing water, Chloroscreen® can be used in either.
- It is this bleach that assists the breakdown of uric salts leaving the base and the throat of the urinal clean and odor free.
- Lasts twice as long as para or non-para up to 60 days.
- DOT Classification: non-hazardous
- Acceptable for use with acid bowl cleaners
- CAUTION: Do not use with concentrated Ammonia

01661: Dissolvable urinal screen with bleach

01664: Chloro Gard™ screen with dissolvable bleach block

01665: Chloro Gard™ Toss in block with bleach

Health Gards® Restroom Odor Control

Health Gards® Deodorant Urinal Screens with Non-Para Block (five fragrances) and Deluxe Vinyl Deodorizing Urinal Screens (four fragrances). No restroom deodorant system would be complete without Health Gards® Para Toss-In Blocks, Toilet Rim Cages and Stick Up Deodorant Discs.

Health Gards® Automatic Bowl Cleaners

Health Gards® ABC In Tank Bowl Cleaners are an easy method of keeping toilet bowls clean and fresh.

- Non-staining, surfactant formulation
- Biodegradable, contains no phosphates
- Tints water blue with each flush, nonpolluting
- Packed 12 per case
- ABC is a standard quality formula containing 22+% surfactant cleaning agents.

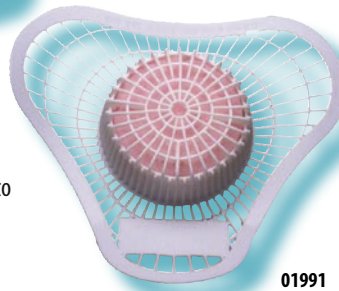

08980

48161

48249

Para Toilet Bowl Blocks

- 4 oz. block with deluxe reinforced plastic hanger
- Universal fit for most toilets
- Individually wrapped, packed 12/12s

Para 20-Pound Block (not pictured)

- 20-pounds, ideal for industrial areas, like dumpsters
- packed two 20-pound blacks per case

NOTE: For optimal product performance, para products, which are activated by air and do not dissolve in water, should be used in urinals with standing water; non-para products, which are activated by water, should not be used in urinals with standing water.

Health Gards® Continuous Deodorization

Featuring Health Gards® "CLOUD" Metered Aerosols

Freshen the air and eliminate malodors with continuous metered deodorization of Health Gards® aerosols. These handsome, battery-operated units dispense up to 3,400 metered sprays from each refill. Covers up to 6,000 square-feet

Now freshening the air and eliminating malodors just got even more pleasant... From "Tropical Trade Winds," the fresh Caribbean scent of the Islands, to vast fields of "Honeysuckle Blossom," our Health Gards®

Metered Aerosols represents the latest and most popular deodorizing scents. Health Gards® Metered Aerosols contain NEUTREX®, an odor-fighting compound that actually "seeks out" malodors for the purpose of eliminating the source.

- Non-chlorinated aerosols are V.O.C.-compliant
- Universal fit spray actuator on aerosols fit all cabinets
- Each aerosol provides up to 3,400 metered sprays

Health Gards® Metered Aerosols

Choose from a variety of scents.

07901-07923

Health Gards® Metered Aerosols

Health Gards® Metered Aerosols, featuring "Neutrex"® the Smart Odor Neutralizer, are specially formulated for public restrooms and other large rooms. Covers up to 6,000 cubic feet. Universal spray actuator fits most competitive dispensers.

The 7 oz. can provides 30 days of continuous deodorization, when the dispenser is set for 24-hour function at 15-minute intervals. By adjusting operational settings to day or night, you will extend the life of the can. Decreasing the intervals between sprays will deplete the can faster; increasing the spray intervals will extend the can's life.

V.O.C. compliant. Choose from a variety of scents.

Metered Insecticides Available.

(not available for Canadian Market)

07999

Odor Neutralizer Available.

STRATUS® 3 Slimline Metered Aerosol Dispenser

The Health Gards® Stratus 3 Metered Aerosol has been designed with smaller footprint on the wall. Polypropylene construction will not break down or melt away from the overspray of acetone based formulations.

- 24-hour/day (light sensing) modes of operation
- Services up to 6,000 cubic feet
- Wall mount is easy to refill
- Spray timer adjusts to release aerosol at 5-, 10-, 15- or 20-minute intervals
- Longer-lasting battery life, uses one or two "AA" batteries
- Available with or without lock

07531L

STRATUS® 2

The Health Gards® Stratus®2 Metered Aerosol Dispenser emits a fresh burst of fragrance every 15 minutes for continuous odor control.

- Sleek, attractive design complements any decor.

Special Design Features:

- Unique Key-Assembly Design
- LCD Indicator
- 5-40 minute multiple spray interval
- 24 hour/Day/Night Sensor
- Longer-lasting battery life
- One 'D' cell battery required

07521

CIRRUS® 2

The Health Gards® Cirrus®2 Aerosol Dispenser is truly a step ahead in dispenser function and design. Featuring the distinctive Health Gards® "Cloud" design and an easy-read LCD programmable clock that displays current time. The user can choose from 24-hour operation or pre-set start and stop times. Programmable dispenser permits user to determine intervals between sprays (1 to 99 minutes).

- One 'D' cell battery required.

07523

Health Gards® Stratus®3 Retail Pack Metered Aerosol Kit

Hospital Specialty's retail pack is ideal for home, office or anywhere malodors exist. We have combined our sleek Stratus® 3 dispenser into a combo-pack that includes two 7 oz. Health Gards® Metered Aerosols fragrances. It's a convenient solution to any odor control problem. Great sample pack or starter kit.

Health Gards® Continuous Deodorization

07601CA-07623CA

Health Gards® Light Touch Metered Aerosols

Health Gards® Light Touch Metered Aerosols, featuring "Neutrex"® the Smart Odor Neutralizer, are specially formulated for smaller restroom, offices, conference rooms - where all that is required is that light touch of fragrance. For optimal use in areas under 2000 cubic feet. Universal spray actuator fits all competitive dispensers.

The 2.2 oz. can provides 30 days of continuous deodorization when the dispenser is set for day or night function at 15 minute intervals.

V.O.C. compliant. Available in our most popular scents - Gala Garden, Very Berry Cherry, Hot Apple Pie, Sassy Citrus, and Mango Madness

Neutrex® is the registered trademark of Aroma Tech, Inc.

Health Gards® Light Touch Dispenser

Health Gards® Light Touch Metered Aerosol Dispenser features an attractive and discreet design as well as:

- 1 'AA' battery for 12 month usage
- Selected time intervals of 5, 10, or 15 minutes
- **Operates:**
 - 24 hours
 - Day - only in the presence of a light source.
 - Night - only in the absence of light.
- LED indicators for power indication and low battery indicator

07533

Health Gards® Hand-Held Air Fresheners

07801CA-07823CA

Health Gards® Air Fresheners

Dry odor neutralizer and deodorizer, featuring “Neutrex”® the Smart Odor Neutralizer. Our non-staining ultra fine mist adds a pleasing scent to any room. Effective for hours. Available in our five most popular scents - Gala Garden, Very Berry Cherry, Hot Apple Pie, Sassy Citrus, and Mango Madness. Hand held air fresheners are V.O.C. compliant.

Health Gards® “CLOUD” Air Fragrance Gel Systems

The most effective method of ridding the air of malodors on a continuous basis. Hospital Specialty’s unique STRATUS® and CIRRUS® fan cabinet dispensing systems complement natural air flow movement by directing the fragrance in an upward direction out of the top of the unit.

09301-09307

Choice of fan dispenser color (timeless white or classic black). Cirrus® Fan Cabinet has LED display. One ‘D’ cell battery required.

09530

09520

“CLOUD” Fragrance Gels:

- Fit virtually all fan dispensers
- Feature a foil-seal “no spill” package to lock in fragrance
- Low V.O.C.s - meet C.A.R.B. Regulations
- Contain essential oils from flowers, herbs and other natural vegetation
- Are completely biodegradable and cups are coded for recyclability
- Micro-encapsulated organic formula evenly distributes fragrance
- Provides more than 30 days of clean, fresh air while neutralizing malodors
- Choose from a variety of fragrances

HOSPECO® HS Automatic Hand Dryers

The HS automatic hand dryers offer the best value in a maintenance-free hand dryer. The HS is designed to provide many years of trouble-free service. The stylish new design provides great performance while consuming less electricity.

Options include a heavy-duty steel cover with a durable white epoxy finish or a chrome plated satin finish.

Construction Features:

Cover - One piece heavy duty, flame retardant ABS polymer with white finish. Optional one-piece 18 gauge steel cover finished with electrostatically applied chip resistant white epoxy finish (M) or chrome plated satin finish (C). Cover is secured with two tamper-resistant screws.

Motor - Permanently lubricated, maintenance-free, brushless induction motor with automatic resetting thermal protector. 1/12 HP, 3250 RPM.

Automatic Sensor - 100% solid state design eliminates relay contact failures. Microprocessor controlled infrared sensor turns dryer on when hands are under the air outlet. Dryer turns off when hands are removed. Override turns off in 80 seconds if hands are not removed.

Heating Element - Constructed of NiChrome® resistance wire with automatic resetting thermostat. Heating element operates in the black range for maximum life.

First Step® Safety Products

Is Your Workplace Covered By The OSHA Blood Safety Standard?

Hospital Specialty offers a broad line of blood exposure products from First Step® to help you meet compliance to OSHA Final Rule 29 CFR 1910.1030- "Federal Bloodborne Pathogen Standard"

Compliance is now easier than ever before!

Disposable Blood Safety Kits

Individual packaged in quick-open plastic bags printed with usage instructions, these single usage kits are compact and easy to use.

Disposable Kit User Packs

Gross Exposure Packs should be used when blood is spurting, spraying or splashing.

OSHA Compliance Pack

All in one pack for easy compliance with OSHA Standards!

- Personal Protection Equipment
- Written Exposure Control Plan
- Training Program

First Step®'s compliance packs offer a low cost mix of the three key ingredients needed for safe employee biohazard protection as required by OSHA standards. Two stock sizes make it easy for all businesses to purchase one complete kit and be in compliance

Waste Receptacles

First Step® offers a wide assortment of both disposable and reusable biohazard waste systems for safe and convenient removal of potentially infectious materials.

Mountable Safety Equipment Cabinets

Compact and attractive Personal Protection Equipment cabinet mounts easily on wall. Ideal method for organizing safety equipment and supplies in plants, locker rooms or vehicles.

Miscellaneous Safety Items

- Body Fluid Solidifier
- Speed Clot Medicated Spray-On Bandage
- Student & Instructor Training Manuals

Personal Blood Safety Kits

- Refillable Infection Safety Kits
- Refill from bulk case components or handy refill packs for the lowest cost protection available.

Protective Apparel

- Fluid Barrier Gown

Written Exposure Control Plan

40 page manual is designed for quick and complete development of your own written exposure plan. Twelve sections cover all the required plan areas including engineering and work practice controls, personal protective equipment housekeeping, record keeping procedures, vaccinations and training communications... designed in an easy and convenient fill-in-the-blank style, and also contains forms for record keeping and reporting.

- Training Video

The First Step® Stairway To Safe Exposure Control:

PROTECT

- Written Exposure Control Plan
- Training
- Work Practice Controls

PREVENT

- Hands
- Clothing & Shoes
- Mouth, Nose & Eyes

CONTAIN

- Infectious Waste
- Evidence & Sharps
- Body Fluid Spills

DECONTAMINATE

- Hands & Skin
- Equipment
- Vehicles & Other Surfaces

- Do you provide a first aid kit for employees?
- Do you have employees who receive first aid training as part of their job?
- Are any of your employees expected to handle bleeding persons or clean up blood or body fluid spills?

If the answer to any of these questions is **YES**, compliance is now easier than ever before! OSHA 1910. 1030, the law designed to help prevent the spread of HIV and Hepatitis B in the workplace from exposure to blood and body fluids that contain blood (such as vomit), requires employees to do three primary things:

- The employer must develop and maintain a policy manual commonly called a "Written Exposure Control Plan".
- The employer must provide "at risk" employees with blood exposure safety training initially upon hiring and annually thereafter.
- The employer must also provide personal protective equipment, commonly in the form of pre-assembled kits, for employees to use when they are giving first aid or handling someone who is bleeding; and body fluid spill kits that include absorbent powders, scoops and germicidal disinfectants for cleaning up a blood or body fluid spill.
- Compliance with the complete standard may require other actions. Contact you local OSHA office for more information about the standard's requirements.

Industrial Wipers

Hospital Specialty offers the most comprehensive line of non-wovens, wovens and textile wipers in North America, featuring the following substrates and many more to meet your specific end use application. Please refer to our wiper catalog for complete product information.

DuPont® Sontara EC® Wipes

Wet, dry or in between, Sontara EC® wipers are more versatile than cloth rags, stronger and more durable than paper, and less expensive in use than both. They're made under strict production controls to provide consistent quality, uniform size and packaging - all the performance advantages you expect from DuPont®.

MicroWorks® Microfibers

One strand of MicroWorks® Microfiber is several hundred times smaller than a strand of cotton. The lint free, hypo-allergenic, non-abrasive wedge shaped microfibers scoop, lift and trap dirt, dust, grime and moisture without scratching. Traditional cotton cloths do not pick up dirt because their rounded fibers actually push particles away from cloth, leaving dirt and streaks behind.

Foodservice Towels

A complete variety of reusable disposable wipers for foodservice and food preparation work areas including table bussing, scrubbing, counter cleanup, and general purpose wiping.

Textiles

HOSPECO® offers a wide variety of textiles, designed for everyday cleaning and dusting.

New and Reclaimed Rags

For cleaning, polishing and related tasks, Hospital Specialty carries a comprehensive line of woven wipers; from low-lint cotton T-shirt for critical applications to reclaimed rags for grease and oil clean-up. New woven wipers are consistent in size and quality.

PRISM® Branded Wipers

Select Wipers are available in our branded PRISM® product line. Ask your HOSPECO® Representative about complete details. Including our most popular:

- Multipurpose Industrial Wipers
- Foodservice Towels
- Industrial Sorbents

ToolWorks® Wipers

ToolWorks® Wipers are available in four popular wiping substrates (DRC All-Purpose wipers, Airlaid Multi-Purpose wipers, Cloth Replacement wipers and Scrim Reinforced wipers) to meet a variety of end user applications. Measuring a large 9" x 12.75", the inter-folded wipers dispense one at a time for easy clean up of spills.

Unique ToolWorks® dispenser box features an innovative, patent pending design that fits on any standard roll towel holder. The ingenious package, once inserted into the towel holder, puts wipers within easy reach, yet off the workspace and out of the way.

Multipurpose Industrial Wipers

These Nonwoven disposable wipers are the right choice for all-purpose wiping jobs where absorbency and low cost per wiper is a must.

- Airlaid Wipers
- Scrim-Reinforced Wipers
- DRC Cellulose Wipers

Dust Cloth

Designed for specific task of dusting. Variety of sizes. Treated to attract dust and hold it to the wiper.

ADEPT® Critical Task Wipers

ADEPT® Critical Task Wipers (also known as delicate or light task wipers) are soft, economical wipers ideal for a variety of tasks requiring low lint wiping. Manufactured from virgin fiber substrates with no binders, starch or silicone additives, ADEPT® Critical Task Wipers are soft and highly absorbent with low lint and high tensile strength. Used for wiping delicate or sensitive materials, parts, utensils, equipment or surfaces that require clean, soft, low lint wiping.

ADEPT® is a registered trademark of HLO Enterprises, San Francisco, CA.

Industrial Sorbents

Our Industrial Sorbent Systems and Products are designed for the purpose of containing, absorbing, picking up and assisting in the disposal of loose fluids. They are important tools to control leaks and drips and help keep the workplace operating responsibly and the environment safer. PRISM® Industrial Sorbent Systems and Products help your customers avoid harsh penalties for improper waste management.

Hospital Specialty offers a comprehensive line of sorbents. Please refer to our Sorbents catalog for complete product information.

Proper handling of spills is no longer just a good idea... it's the law.

- Large Pads Sorbent Pads
- Large Rolls (Sorbents)
- Safety Floor Matting (Sorbents)
- Flexible Socks (Sorbents)

Personal Cleansing & Pre-Moistened Wipes

Wet & Wash® Rinse-Free Bath Cloths

Made from a unique, cloth-like fabric that gets soft and thick when wet, Wet & Wash® cloths are dry-loaded with a special body wash formula that gently cleanses and leaves skin soothed and deodorized... and does not need to be rinsed off from skin so minimal water is required!

- Cloth-like fabric gets soft and thick when wet
- Dry-loaded with a no-rinse body wash formula
- Will not dry out like pre-moistened wipes
- Wet out cloth and the enriched formula with aloe activates

- Gently cleanses and leaves skin soothed and deodorized
- No need for rinse off from skin
- Ready to use anytime, anywhere
- Toss away after use, DO NOT FLUSH.

Personal Care Wipes

Precious® Baby Seat

Provide patrons with a safe and secure place for their child while using your washroom/fitting room. This compact unit fits inside the stall or fitting room without compromising space. Precious® Baby Seat includes a molded-in hook for purse or bag, Y-harness seat belt for safety, pre-drilled mounting cups, concave bed and head rest, and side support for extra safety.

Each seat includes all installation hardware and an easy-to-use mounting template. This unit is ADA compliant when it is installed to manufacturer's instructions.

Precious® Baby Changing Station

If you don't think this item is a necessity, you've never tried to change a baby in a public restroom without one. When not in use, the Baby Changing Table folds up and lies flat against the wall.

Precious® Baby Changing Station from Hospital Specialty includes two diaper compartments. Recommended installation meets ADA Accessibility Guidelines. Precious® Station offers highest degree of safety with a horizontal wall mount, keeping baby and adult close.

San-Eaz™ Sanitary Door Handle Tissues

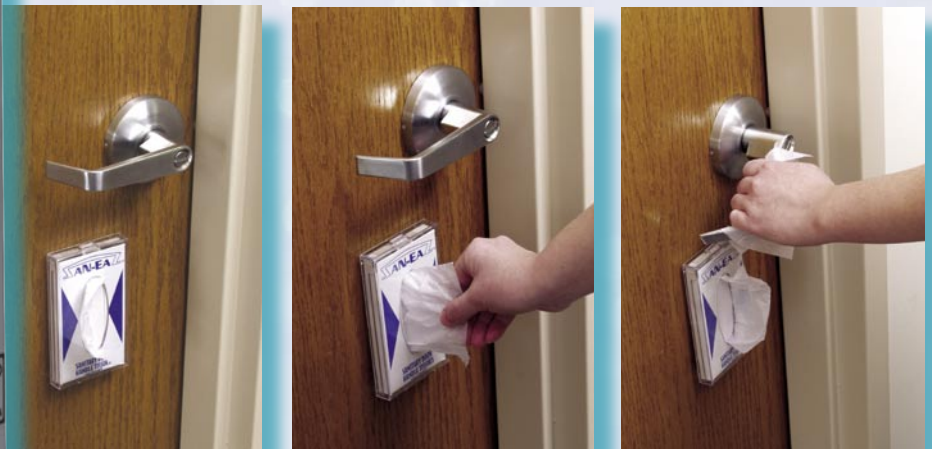

The most state-of-the-art restrooms include touch-free urinals and toilets, touch-free soap dispensers, touch-free water faucets, touch-free hand dryers, touch-free towel dispensers, and touch-free waste receptacles. And then you touch the door leaving the restroom.

They've thought of everything except perhaps the simplest and most important. Placed near any door handle, people can ensure that their hands remain sanitary by pulling a tissue and opening the door.

SNZ-240-R

"Get A Clean Handle On Things."

San-Eaz® is the registered trademark of Worldwide Intergrated Resources, Inc.
