Walk-Behind Scrubber Hospital Series

H SERIES

The H Series machines are Minuteman's new and innovative line of walk-behind scrubbers specially designed for use in hospitals and other patient care facilities. With advanced technology, new green clean features and the revolutionary Aqua-Stop*; this series has been engineered to change the way you clean floors.

H Series Features

- Sleek design provides an excellent line of sight to the area that needs to be cleaned
- Equipped with silence mode, which cuts sound pressure from 70 to 66 decibels, resulting in even quieter operation
- Tools on-board for ease of use and efficiency
- Anti-microbial recovery tank is hygienic and easy-to-clean
- Flow-optimized recovery tanks with Anti-Foam System (AFS) protects the vacuum motor from damage
- Easy-to-understand controls ensure that the machine is simple to operate
- The compact design results in total operator comfort by focusing on ergonomics
- On-board charger is convenient and allows the machine to be charged anywhere
- Brush change-out is quick and easy
- For safety, when the on-board charger is plugged in, the machine is not operable
- Low brush deck design is ideal for cleaning underneath obstacles such as shelves, and other stationary objects
- Aqua-Stop System, where available, provides cost savings and environmental protection

Equipped with silence mode, which cuts sound pressure from 70 to 66 decibels, resulting in even quieter operation.

Easy to operate and easy to understand controls make the H Series perfect for use in patient care facilities.

On-board tools make the H26 more efficient and easy-to-use.
