

Speed kills (the competition)

Key Features:

Ease of Operation

- Low profile base makes getting under toe kicks easier.
- Adjustable height handle fits any operator comfortably.
- Low torque design produces brilliant high gloss with minimal effort.
- Non-marring bumper protects walls and baseboards.
- Quiet operation.

Operator Comfort and Safety

- Comfort padded grips.
- Ambidextrous safety lockout switch.
- 75' Long power cord for maximum range.
- Built in circuit protection.

Durable and Rugged

- All metal handle and chassis construction.
- Steel switch levers are nearly indestructible.
- Belt drive reduces load on bearings and extends motor life.
- Non-marking ball bearing wheels.

Powerful Results

- 1.5 HP Motor
- 1750 RPM
- Flexible pad holder with center-lock device.
- Delivers excellent gloss performance on a variety of floor surfaces.
