

## MODE 1

### Carpet and Upholstery Cleaning

200 C.F.M.

220 P.S.I.

200° Heat

With a 220 PSI Solution pump and 200° heater, this mode gives you the heat you need to break up tough grease and grime on carpets, upholstery, and more.

The on-board dual circuit indicator makes it easy to find the two separate circuits you need to run the unit. It's 15 gallon tanks give you maximum capacity to finish even the largest of jobs.

# Dual Modes Get More Done

### M-Series

The M-12 has two unique cleaning modes, to allow you to clean almost every surface in your building!

Large tank lids

Switch plate

Prime valve & pressure regulator

## ADD THE OPTIONAL ACCESSORIES YOU NEED FOR YOUR SPECIAL CIRCUMSTANCES:

### EZ Glider

A high quality, dual jet, 12" carpet cleaning wand.

### Hose Packages

**8500** - 15' of 1.5" crushproof vacuum hose and 1/4" high pressure solution line.

**8100** - 25' of 1.5" crushproof vacuum hose and 1/4" high pressure solution line.

### Upholstery Tool

**8400** - A quality stainless steel upholstery and spotting tool.

### System Maintainer

- This solution keeps your pump, hoses, and heaters clean and running trouble free.

## MODE 2

### Tile and Grout

200 C.F.M.  
1200 P.S.I.

Auto Fill and Pump-out  
In tile cleaning mode, the M12 gives you 1200 P.S.I. of pressure to blast dirt and grime out of grout lines.

The automatic fill and automatic empty feature mean that you won't have to fill the unit with a bucket on those large jobs – saving you time and money.

Auto fill and pump out

#### Spinner

The Spinner® tile cleaning tool uses high pressure to simultaneously power wash and extract water from tile surfaces. Tough enough to tackle ceramics, stone, and even concrete surfaces.

#### Corner Spinner

This mini version of the Spinner® is perfect for getting into corners and other tight spots.

#### Counter Spinner

The counter Spinner® allows you to clean counter-tops, walls, shower stalls, and more.
