

EnviroGard

Propane Conversions

**WE HELP YOU
LOWER FUEL
COSTS,
SIMPLIFY
MAINTENANCE,
GO GREEN!**

EnviroGard Propane Conversions make engines and power equipment run cleaner, reduce maintenance and lower fuel costs. EnviroGard fuel systems use clean burning propane gas and achieve ultra-low emissions without sacrificing power or performance. Each EnviroGard propane conversion maintains EPA engine certification and engine warranty.

EnviroGard LPG Engines feature:

- 8HP - 37HP RANGES
- ANY GASOLINE APPLICATION
- FULL MANUFACTURERS WARRANTY
- EPA & CARB CERTIFIED
- NO LOSS IN PERFORMANCE OR POWER
- UP TO 90% EMISSION REDUCTION
- SERVICE INTERVALS REDUCED
- FUEL COSTS REDUCED

EnviroGard

Propane Engine Conversions

CERTIFIED ENGINE CONVERSIONS AVAILABLE FOR:

CERTIFIED CONVERSION COMPONENTS:

- 1. Application Specific Brackets**
EnviroGard application specific brackets are designed to maintain the correct weight and balance of the equipment being converted as well as provide for easy installation.
- 2. Vapor Propane Cylinder**
Specifically designed for engine applications, these DOT approved propane cylinders feature numerous safety features. Cylinder mounting brackets make mounting cylinders easy.
- 3. High Pressure Fuel Hose**
- 4. Safety Fuel Lock-Off**
EnviroGard's Safety Fuel Lock-Off is a safety device designed to shut off the fuel flow from the propane cylinder to the regulator in the event of engine failure or loss in oil pressure.
- 5. EnviroGard Regulator and Mounting Bracket**
EnviroGard regulators are designed to provide the optimal amount of fuel to the EnviroGard carburetor. Mounting brackets are specifically designed for each engine and make ensure the regulator is securely mounted in the correct position.
- 6. Low Pressure Fuel Line**
- 7. EnviroGard Carburetor**
EnviroGard carburetors are calibrated to provide a stoichiometric air/fuel ratio which results in optimal power, performance, and fuel economy while producing ultra-low emissions.
- 8. EPA Certified Engine**
EnviroGard only offers propane conversions that when installed maintain the EPA engine certification and engine warranty.
