

PULLMAN-HOLT

The market leader for HEPA Vacuums introduces the newest model to its product line-up. Pullman-Holt's 390ASB is a powerful 4-gallon, dry only HEPA vacuum with exceptional stability. Designed for professional cleaning, this canister style vacuum has a superior, low profile design that makes it extremely maneuverable and easy to use. Unlike similar canister HEPA vacuums, the 390ASB is equipped with a HEPA filter that is individually tested and certified, a standard feature on all Pullman-Holt HEPA Vacuums.

Features:

- A quiet, yet powerful 1.5 HP motor provides the suction of vacuums twice its size.
- HEPA filters are individually tested and certified to have a minimum efficiency of 99.99% at .3 microns based on particle count test method, IEST-RP-CC001.
- Convenient onboard tools and power cord storage.
- Low profile design prevents tipping while providing greater mobility.
- Durable stainless steel tank is attractive yet rugged.
- Conveniently located foot activated on/off switch.
- ETL certification - meets UL and CSA standards.

Technical Specifications:

Model:	390ASB
Product Code:	B160535
Motor:	1.5 HP
Motor Type:	2-stage, air-thru
Amps:	11.8
Waterlift:	97"
CFM:	100
Noise Level:	65 decibels
Construction:	Stainless steel tank, injection molded base and lid
Cord:	25 ft.
Filters:	HEPA Filter (B160534) Disposable paper filter bag, 4 gallon (1/2 bu.) (B600900) Motor Intake Filter (B160538)
Weight:	18 lbs.; shipping weight 26 lbs.
Warranty:	1 year

Tools & Accessories:

6 ft. hose, telescopic steel wand, two-position ergo slide floor tool, dusting tool, upholstery tool and crevice tool. Optional 14" Power Head available.

Onboard Tool & Cord Storage

Optional 14" Power Head

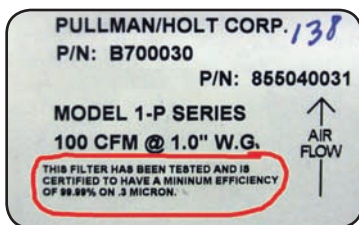

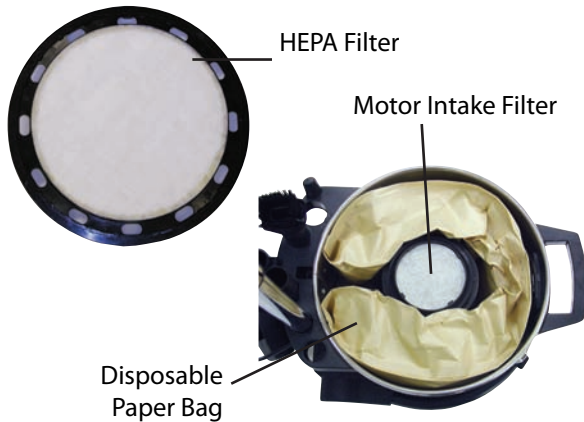

PULLMAN-HOLT

390ASB HEPA Vac

Introducing the model 390ASB – the newest addition to Pullman-Holt’s broad line of HEPA Vacuums. Unlike most HEPA Vacuums on the market, the model 390ASB’s filter is designed and manufactured to meet or exceed all applicable EPA and OSHA standards. The key is an independently certified HEPA Filter– a must when vacuuming in areas where positive control of hazardous particles is essential to general health and safety. Compare the advantages this product has to offer in performance, construction, filtration and tool/ accessory offerings.

Individually Tested & Certified HEPA Filter
(based on IEST-RP-CC007 particle count test method)
