TWO PRODUCTS IN ONE:

Clothesline Fresh BLD combines a laundry builder with a detergent to increase pH and remove soil all in one step! The elevated pH of Clothesline Fresh BLD speeds up soil removal during washing by allowing the individual fibers of a fabric to open up which expedites entrapped soil release. Clothesline Fresh BLD is a highly alkaline product that also contains water softening and soil anti-redeposition agents to aid in the washing process.

CONTEMPORARY CLEANING TECHNOLOGY:

Clothesline Fresh BLD is enhanced by patented polymeric technology. This technology quickly suspends tough oily soils and particulate soils to prevent them from redepositing back onto the fabric. Clothesline Fresh BLD does not contain phosphates or nonylphenol ethoxylates, both of which can have a negative environmental impact.

NON-STAINING COLOR:

Clothesline Fresh BLD is brilliant red in color for easy identification. There is no need to worry about the red dye attaching to your fabrics. Spartan's built detergent contains a water soluble polymer which attaches to the dye to keep it in the water and not on your fabrics.

COLOR AND NUMBER SYSTEM:

Each Clothesline Fresh Laundry product has been color coded and number coded for easy product identification. All product information and literature, plus, each product label, carton and secondary label reflects this color and number, making training easier and faster.

HIGHLY CONCENTRATED:

Clothesline Fresh BLD is a highly concentrated formulation allowing for superior cleaning even when diluted down to 1:400 (1/3 oz./gal.).

DIRECTIONS FOR USE:

DO NOT MIX WITH OTHER CHEMICALS.

Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet. If questions remain, consult your employer or a physician.

- Sort laundry by color and fabric type.
- Always read and follow care directions.
- From care directions, choose proper wash cycle and water temperature.
- Do not overload washer with soiled laundry.
- Add Clothesline Fresh BLD:
 - At 3.0 – 5.0 oz. per 50 lbs. of dry clothing depending on soil load
 - or at 0.5 – 1.0 oz. per 3 gallons of wash water.
- For extremely soiled clothing, an extra wash cycle may be necessary.

- When using Clothesline Fresh BLD, the wash water must be properly neutralized with Clothesline Fresh Sour, during the final rinse, before washed clothing is worn.
- Clothesline Fresh BLD is not recommended for use with top loading washers not equipped with automatic dosing systems. Fiber damage and/or corrosion may occur.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATIONS:

- pH – 13.5 – 14.0
- Color – Brilliant Red
- Stability -
 - Shelf – One year minimum @ 24°C/75°F
 - Accelerated – 30 days minimum @ 49°C/120°F
 - Freeze/Thaw – Can withstand three freeze/thaw cycles
- Phosphate free
- Nonylphenol ethoxylate free
- EDTA free
- Biodegradable surfactants and water softeners
