

Product Technical Sheet

SSS MULTI-SURFACE CLEANER & POLISH

Description: This unique product is specially formulated to clean and shine a wide variety of surfaces in one easy operation. The advanced surfactant system gives this product professional strength cleaning power like a great all purpose cleaner. It sprays out in a fast breaking white foam and easily wipes off with minimal effort to remove dirt and deposits. The special non-silicone formula polishes and shines without leaving a greasy film to attract dust and deposits or fingerprints. In addition, this product is fortified with UVX to guard against harmful ultraviolet rays which can damage surfaces over time. As an added bonus, SFX, a unique static guard, is also included to reduce electrical charges that can cause surfaces to attract dust particles. This waterbased formula is nonflammable for safety and pleasantly fragranced with a powerful deodorizer to also refresh the surface and the area as it cleans and shines.

This product is ideal for use on virtually any hard surface including metals such as stainless steel, chrome, polished aluminum, painted metal surfaces on desks and filing cabinets and more. It is also excellent on many stone surfaces including marble, granite, and composites/cultures as well as many plastics like vinyl, laminated panels, Corian®, and textured moldings. It will even work well as a furniture polish with the advantage of extra cleaning and deposit removal power on everything from natural finishes to polyurethanes to laminates. Simply spray and wipe – no buffing, hazing, or rub out required to make these surfaces look renewed and refreshed. A true all-n-one type product, applications are virtually endless. NOTE: This product is not intended for use on glass/mirror applications.

Directions: Shake can well. Remove cap and turn actuator toward dot on valve cup. Hold can upright 6-12 inches from surface to be cleaned. Cover the area with a light spray – do not over apply. Wipe clean and dry with a dry cloth. Be sure to use a clean wiper to prevent reapplying deposits. Not for use on glass or mirrored surfaces.

Health Hazard Data: Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F. Avoid contamination of food. Do not spray into eyes. KEEP OUT OF REACH OF CHILDREN.

Spill Or Leakage Procedures: Do not flush to sewer. Absorb with suitable material and dispose of according to local, state and federal regulations. Aerosol cans when vented to atmospheric pressure through normal use, pose no disposal hazard.

Product Specifications:

Wt./20oz. can:	18 Ounces
USDA Category:	N/A
Classification:	Aerosol Multipurpose Cleaner & Polish
General Appearance:	Foamy Spray
Color:	Slight Yellow
Odor:	Fresh
pH:	8.0 – 9.0
Vapor Pressure At 70°F:	60 psig
Spray Pattern:	Wide Oval
Flammability:	Not flammable per CPSC Flame Projection Test
NFPA Code 30B:	Level 1
