## Dilution Control System

### Why It's A Better System

- Concentrate and RTU labels are numbered and color coded for safety and to facilitate training
- Closed system - Spill proof container
- New Metered Tip with each concentrate provides proper dilution each time
- English/Spanish label copy
- Each concentrate has an easy carry handle
- Recyclable container

### Why It's A Better Cleaner

- Unique acid blend - Easily dissolves soil on grout lines
- Removes alkalinity, soap film, and grime - Makes surfaces clean and less slippery
- Non abrasive - Won't dull surfaces
- Cleans concrete and quarry tile floors - Restores floor to original condition
- Water based - Nonflammable, non corrosive

### How It Cleans

Dispense precisely diluted cleaner into a clean, empty container. If solution is for reuse, properly label NAVIGATOR RTU #31 Foaming Restroom/Shower Cleaner container.

Remove gross soils and debris.

Liberal apply by mop, sponge, or spray onto surface to be cleaned. Scrub if soil is heavy. **Rinse** with water thoroughly. Replace solution when it becomes visibly dirty. (Pretest surfaces for colorfastness.

**Not recommended** for wood, aluminum, or glass surfaces.)
