

OneShot® Foam

Touch-Free Foam Encourages Healthy Hand Washing

The OneShot Foam experience delights users with rich, foam soap that soothes the skin, encouraging hand washing to help reduce the spread of germs. Automatic dispensing eliminates cross contamination. Hygienic, sealed refills keep soap untouched and clean until it is dispensed, providing a safer system than bulk soap.⁽¹⁾

World Class Reliability

TC is the global leader in away-from-home touch-free washroom technology. Smart Sensor™ technology provides trouble-free, automatic dispensing with an industry leading battery life of 2 years or 90,000 hand washes. Dispensers provide visual clues to indicate low soap or battery levels. A new pump in each refill eliminates costly repairs, clogs and leaks for worry-free maintenance.

Low Cost in Use

Controlled dispensing of concentrated foam eliminates costly waste—the number one problem with other soap systems. Industry-leading battery life and highest capacity refills (up to 2000 doses per refill) reduce facility labor and maintenance costs.

Environmentally Preferred

OneShot controlled dispensing helps reduce water usage and over use, so there are fewer chemicals in the waste stream. Premium Enriched Foam soap refills are biodegradable, pH-balanced, and recyclable. Free 'n Clean and Lotion Soap with Moisturizers refills are also Green Seal certified.

* This product meets the Green Seal™ environmental standard for institutional hand cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

OneShot[®] Foam

Touch-Free Counter-Mounted Soap System

technical concepts
Innovative Hygiene Solutions

OneShot[®] Foam

OneShot sets the standard for quality and reliability in counter-mounted soap dispensing systems. Using patented Smart Sensor[™] technology, OneShot detects hands and automatically delivers the perfect amount of soap—every time! Washroom visitors will appreciate the ultimate touch-free foam hand washing experience of this attractive, environmentally friendly, reliable dispensing system.

Attractive, Reliable, Touch-Free Foam Soap System

Quality hand soap at the sink is the best way to encourage healthy hand washing. The OneShot Foam soap system enhances the image of your facility, providing a luxurious and hygienic hand washing experience that delights washroom visitors. It also saves your staff time, reduces waste and helps eliminate messy cleanups.

Why Technical Concepts?

For as long as we've been around, Technical Concepts has developed innovative hygiene solutions for the washroom. Today, we are a global leader, designing and manufacturing products that make washrooms cleaner, environmentally friendly and more cost effective to maintain.

Through our commitment to research and development, we are constantly seeking ways to improve upon our industry-leading reliability, ease of installation and user-friendly performance.

A Superior Hand Wash Experience

- Highly concentrated to provide a rich, dense foam quality for a luxurious hand wash
- Contains special skin conditioning agents that are soothing to the skin
- Convenient, automatic dispensing ensures delivery of the right amount every time

Highest quality, richer, denser foam -32% more solids than other foams.

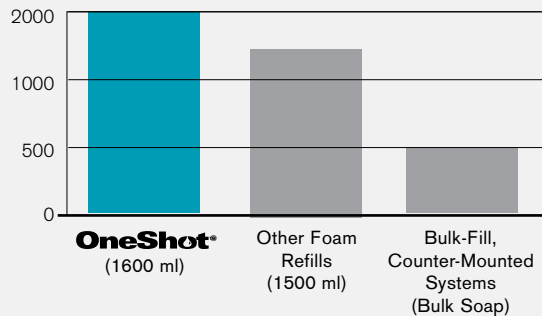

Delights Users

- Attractive, touch-free, foam system
- Delivers the perfect amount of soap every time
- Rich, luxurious foam soap leaves skin feeling smooth
- Environmentally responsible system, with Green Seal certified refills
- ADA Compliant

Preferred by Facility Managers

- Attractive, touch-free design enhances facility image
- Controlled usage reduces costly waste
- Environmentally responsible system
- Fewer refills and battery changes save staff time
- Low cost in use
- Trouble-free system guaranteed to always work

OneShot Foam Performance Hand Washes Per Refill

PROBLEM

SOLVED

Assists Maintenance Staff
