

Square Cat XT Series™

Oscillating Floor Machines

Proven Performance

XT20 #82004

Better Floor Care Results, Faster, with Less Fatigue

FAST — Remove coatings from virtually any hard surface floor at 3,200 sq. ft./hr., saving time and labor costs.

COMPLETE COVERAGE — Rectangular pads scrub from edge to edge, including corners to eliminate extra steps.

ERGONOMIC — Industry leading design is comfortable, eliminates vibration to the operator, and is whisper quiet.

GREEN FRIENDLY — Eliminates the need for harsh chemicals and protects our environment.

Square Cat XT10

- Perfect for tight areas.
- Versatile – for use on VCT, rubber and cork.
- Quieter and easier to operate than standard floor machines.

Square Cat XT20

- Excellent for chemical-free only strip or scrub process.
- Removes layers of finish without chemicals.

SSS Square Cat XT Series™ Features

- Motors use less electricity for an improved Green foot print.
- Six primary and eight secondary isolators for complete vibration elimination (XT20 models).
- Large, non-marking wheels for effortless transport.
- Transport Cart included with 20" & 14" models.
- Commercial grade cord, switch, grips, and fasteners extend life cycle and value.
- Multiple position, adjustable handle makes operation easy for all personnel.
- Meets UL's stringent specifications for safety.
- Proudly assembled in America.

"Square Cat XT's are the easiest to operate and most productive orbital machines on the market."

Square Cat XTS20

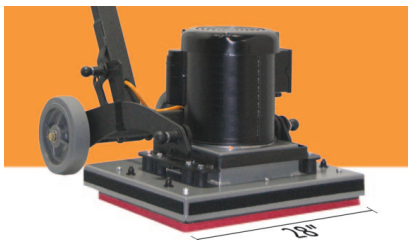

- Built-in Sprayer.
- Puts user in control of placing cleaning solution.
- Save time and labor.

Square Cat XTV20

- Vacuum Dust Containment.
- Clean and pick up dust in one step.
- Excellent for healthcare facilities and for markets with zero tolerance dust regulations.

The Square Cat XT is available in a 28" size for larger spaces. The 40% increased coverage reduces labor while maintaining precise control. Prepare 4,200 sq. ft./hr. with this larger model.
