

FOAM FRESH

Luxurious Foam Handwashing System

STEP^{UP}
SYSTEM

More Hand Washings

With the new luxury Step-Up Foam Fresh soap dispensers, you can expect significantly more washes than with traditional systems. A single push on the dispenser is all that most users require. More washes per cartridge means extended time between changes. Your maintenance staff will spend less time checking and filling dispensers.

Foam Fresh Experience

Rich, creamy lather with every push of the Step-Up dispenser. A generous portion of foam is dispensed and seldom is a second push needed. Users enjoy the feel of the foam and the way it quickly cleans.

Foam Fresh New Day Hand Soap

Foaming skin care formulation that meets GS-41 standards. Fragrance free. Dye free.

Foam soap from one push

Traditional liquid soap from one push

QSC

QUALITY SKIN CARE
