Conserve Water... it's Precious

Facts...

- The average swimming pool has 15,000 gallons of water.
- ONE ZeroFlush Urinal can save 3 swimming pools worth of water in just one year.
- ZeroFlush urinals help reduce the growing amount of sewage to save our already heavily taxed municipal waste water infrastructure.
- ONE ZeroFlush urinal will pay off in less than a year with savings on water, sewage and maintenance costs.
- Unlike competitors, Triple S Barricade Odor Sealer is 100% bio-degradable and environmentally friendly.

Models...

OUR SLEEK MODERN DESIGNS HELP REDUCE SPLASH AND KEEP FLOORS DRIER.

All Models Include...

- mounting hardware
- wall bracket
- drain flange coupler
- odor barrier liquid
- insert key
- installation instructions
- drain insert
- maintenance instructions

Products marked with the Triple S EarthCare® seal meet recognized green standards or have features that contribute to the preservation & sustainability of a healthy environment.

Replacement Kit Includes...

- 1 drain insert
- 1 insert removal tool
- 1 - 12 oz. Barricade Odor Sealer*
- 2 kits packed per case

* Chemical free and 100% environmentally friendly

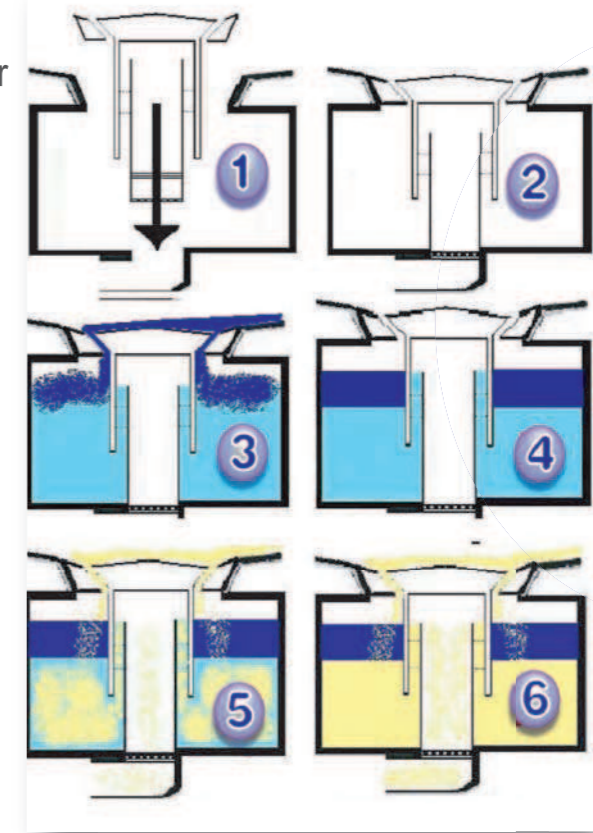

How it works...

1. Install drain insert
2. Trap complete
3. Add all natural odor barrier
4. Trap ready for use
5. First use
6. Ongoing use

No More...

- odors
- difficult installations
- leaky valves
- urinal cakes
- wasteful flushing
- maintenance costs
- sewer costs
- water costs

THE INSERT IS 4 TIMES LARGER THAN THE COMPETITION, SO THERE'S LESS REPLACEMENTS AND LONGER USAGE

After approximately 15,000 uses, blue drops of Barricade Odor Sealer will appear on the insert cover. This indicates it's time to replace the insert and Barrier Odor Sealer.

Cleaning & Insert Maintenance

Daily Cleaning

As with any other urinal (water and no water) ZeroFlush urinals should be cleaned on a regular basis. No scrubbing with detergents or odor masking devices or chemicals are needed.

Insert Replacement

- A. Remove the drain insert with the tool provided. You'll notice the remaining odor sealer fluid and any urine inside the waste trap will automatically flush away down the waste pipe.
- B. Rinse the waste line with a bucket of water.
- C. Install new drain insert into the housing.
- D. Pour in Barricade Odor Sealer through the drain insert and the urinal is ready for use.

DESIGNED WITH THE MAINTENANCE PERSON IN MIND

At no time will the person replacing the odor sealer fluid come in contact with urine.
