Full Cycle® floor pads are Green Seal® certified. The Full Cycle® symbol indicates the pad is certified by Green Seal.

Full Cycle® Products are certified by Green Seal® for Environmental Innovation based on faster biodegradation in landfill conditions and 100% recycled content/natural fiber. GreenSeal.org/GS20.

Who is Green Seal and what is GS-20?

Green Seal is a nonprofit organization that uses science-based programs to empower consumers, purchasers, and companies to create a more sustainable world. GS-20 identifies innovative environmental initiatives and recognizes environmental benefits of leadership products, services, processes, and technologies. GreenSeal.org.

The polyester used in our floor pads, hand pads and utility pads comes from recycled plastic. Primary sources of these materials are recycled soda and water bottles.

How many plastic PET bottles does it take to make a case of pads?

35 Water Bottles (16.9 oz.) = **1 Cs. of 20" Floor Pads** (5 pads)

12 Water Bottles (2 liter) = **1 Cs. of 20" Floor Pads** (5 pads)

As an example, if a company uses as few as 50 cases of 20" floor pads a month this would calculate out to 1,750 16.9 oz. bottles not going into landfills each month.
