Air Care Dispenser with
Piezo Technology

**TEMPO... The New
Pulse of Air Care.**

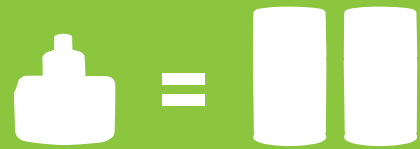

Improves Indoor Air Quality | Long Lasting, Inviting Fragrances

What is Piezo Technology?

Inside the **TRIPLE S TEMPO AIR CARE DISPENSER**, a ceramic piezo disc vibrates as electricity passes through. This propels the ultra fine **TEMPO REFILL** particles into the room. The particles are only one micron in size and will stay airborne up to two hours, resulting in consistent fragrance for the life of the refill.

The **TRIPLE S TEMPO AIR CARE SYSTEM** uses safer chemical formulations than traditional aerosol sprays, with lower, no added VOC. Dispensers can be placed in restrooms, hotels, offices and schools, improving indoor air quality with a pleasant, inviting fragrance.
