# Your Guide to Triple S Wet Mops

## Product Quality

All Triple S mopping products are manufactured to high quality standards. They are specifically designed and manufactured for use in industrial and commercial maintenance applications – tough products for your tough applications.

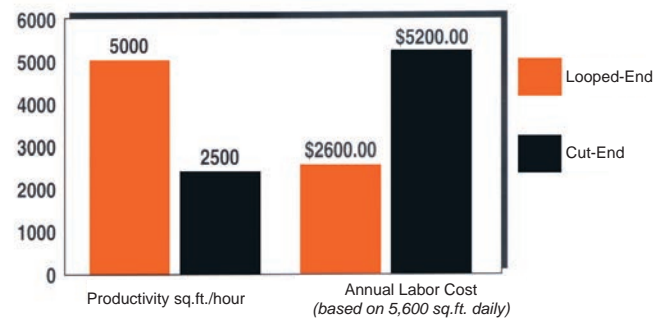

## Initial Cost vs. Value Received

The dollars you spend on material and supplies are only about 10% of your overall cleaning budget. An extra dollar spent wisely on quality supplies will often save you that dollar many times over in LABOR expenses.

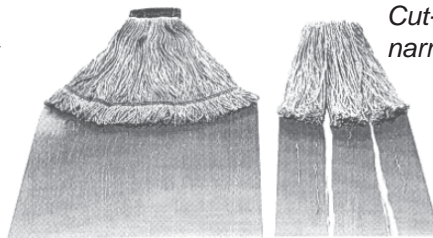

## Looped-End Wet Mops vs. Cut-End Wet Mops

Cut-End mops appear to be a better buy as the initial cost is lower, but because of the Looped-End mop's longevity and durability, it is a better overall value. In-use studies have shown that ONE SSS Super-Sorb Looped-End Mop will outlast EIGHT 4-ply cotton cut-end mops. Plus, the Super-Sorb Mop cleans twice the area in the same amount of time. If your staff is mopping 5,600 sq.ft./day you will save about \$2,600 (labor savings) annually by changing from a Cut-End to a Looped-End mop!

## Looped-End Wet Mop vs. Cut-End Wet Mop

*Looped-End mops with tailbands cover a wider surface area evenly.*

*Cut-End mops offer narrow, uneven coverage.*

## About Mops

*Wet mops are available with several time-saving options – each suited to a particular need. Consider these options to get the best value for the intended application.*

### Sta-Flat

Sta-Flat fixtures give the mop great maneuverability and performance. This simple design helps the mop lay flat on the floor to improve coverage. Detachable, interchangeable screw-on handles are used with Sta-Flat fixtures.

### Tailbands

Tailbands prevent tangling and reduce snagging on furniture and obstacles. Mops with tailbands provide much greater surface coverage than ordinary Cut-End mops, thus cutting your labor costs substantially.

### Yarn Ply

Triple S offers mops in various yarn plies. Most mops are made with 4-ply or 8-ply yarn. Lower ply yarn will handle light to medium-duty mopping and is excellent for general maintenance. A higher ply yarn handles the most abrasive surface with ease. When choosing higher plies you receive the added strength, but sacrifice a degree of absorbency.

# Choosing the Right Mop

Evaluate the different yarn types available to get the best value for your intended application.

Yarn	Advantage	Disadvantage	Application
Blends	Blends combine several fibers to create a balance for price, performance and durability.	May shrink unless pre-laundered.	Professional use where quality and price and less of an issue than performance and durability.
Cotton	Absorbs and retains moisture. Lower purchase cost. Minimal shrinkage.	Break-in required. Cotton may lint, dries slowly, will mold and mildew for shorter life.	General uses, such as mopping up liquids and scrubbing.
Rayon	Absorbs and retains moisture quickly. Dries fast. Less lint. Resists mildew.	Shrinks when laundered. Less absorbent.	Applying finishes and disinfectants, etc.
Synthetics	Superior strength. No lint.	High initial cost. Poor absorption.	Rough surfaces and clean rooms.
Microfiber	Deep cleaning using few cleaning chemicals and water. Reduces cross-contamination risks.	Not suited for heavy soiled areas.	Damp mopping for light solid areas. Ideal for healthcare, schools and offices.

# Laundrying Instructions

*Proper maintenance will extend the life and improve the efficiency of your mops.*

## **Washing Guidelines for All Mops**

	Operation	Minutes	Water Temp	Water Level	Guidelines
1.	Flush	2	120°F – 50°C	High	
2.	Flush	2	140°F – 60°C	High	
3.	Break/Suds	10	140°F – 60°C	Low	6 oz built (non-solvent) detergent 100 lbs-4 g/kg (pH 8.5-11.5 maximum)
4.	Rinse/Extract	3	140°F – 60°C	High	
5.	Rinse/Extract	2	80°F – 27°C	High	
6.	Rinse	2	80°F – 27°C	High	
7.	Rinse	2	Cold	High	

## **Wet Mop Notes**

### **Drying:**

Tumble at 120°F – 160°F until dry.

### **Longevity Tips:**

1. Careful initial processing is essential for maximum mop head life.
2. All new mops should be processed separately, if possible, and overloaded 25 - 50% by weight.
3. The “break” operation should be reduced by 3/4, and maximum water temperature (160°F) used.
4. Rinses should be at a low level and the final two rinses should be with cold water.

## **Dust Mop Notes**

### **Drying:**

Tumble at 120°F – 160°F until dry.

### **Longevity Tips:**

1. Briskly shake out excessive dust in mop head before washing.
2. Final rinse in water to remove alkali.
3. Excessive temperatures and drying times will cause rapid mop deterioration.

## **Microfiber**

### **Drying:**

For best results, air dry microfiber mops at 140°F or less, until 25% moisture content or less.

### **Handling/Processing:**

1. Do not use bleach to remove stains or for any other reason. Bleach will decrease the effectiveness and durability of the microfiber product.
2. Do not use fabric softener.
3. Do not wash with terry towels, regular mops or any other products that will shed lint.

### **Note:**

Overtime, the use of harsh chemicals such as those contained in bleach and fabric softeners will reduce the performance and longevity of microfiber mops.

# EarthCare® Guide to SSS Sustainable Mop Solutions

Polyethyleneterephthalate or PET, is used for high-impact resistant containers. Everyday products such as soda and water bottles and many household products create PET waste. According to the Container Recycling Institute, more than 116 billion beverage cans and bottles are landfilled, littered and incinerated annually. When we are able to take ordinary PET plastic bottles and turn them into high grade dust control products we make a significant impact on everyday waste. Our Triple S Finish Mops are made with 42% post-consumer content, of that, 19% is PET plastic. We believe that every little bit counts, and we maintain the highest percentages of recycled content in our products.

Our cotton wet mops contain post-consumer recycled cotton like this t-shirt. This cotton cut-end mop contains 93% PCC.

## Old is Made New Again

Our mops not only contain high percentages of post-consumer cotton fibers, but PET plastics as well. We are consistently looking for ways to refine manufacturing processes to both reduce and reuse waste whenever possible. By utilizing a vertically integrated mop process we are able to benefit from the most ecofriendly products while maintaining excellent performance and durability. This is our commitment to the preservation of a healthy environment for all.

Just one of the ways to show our commitment

# SSS Finish Mops

## SSS Level Best II Finish Wet Mops

Reduce fatigue with the Level Best II Finishing Mop!

- Continuous filament, non-linting nylon yarn glides effortlessly over the floors, leaving a smooth, streak-free finish.
- Since nylon yarn does not absorb finish, it is applied directly to floors without waste.
- Clean up is fast and easy, reducing labor costs.
- Looped-end construction and single tailband increase durability.
- Headbands available in 1 ¼" or 5" widths.

Item #	Size	Color	Headband	lbs.	Case
36264	Medium	White	1 ¼"	12	12
36265	Large	White	1 ¼"	15	12
36266	Medium	White	5"	12	12
36267	Large	White	5"	15	12

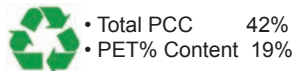

## SSS Finish Wet Mops

Easy to use and easy to clean, the SSS Finish Mop readily releases and evenly spreads floor finish.

- Unique blue/white striped rayon blend yarn is easily identified to help prevent contamination.
- Tapeless tailband eliminates streaking and prevents tangling.
- Launderable.
- White mesh headbands available in 1 ¼" or 5" widths.

Item #	Size	Color	Headband	lbs.	Case
37825	Small	Blue/White	1 ¼"	9	12

### Notes:

SSS 4-ply Rayon Wet Mops are made  
in FULL OUNCE WEIGHT.

A 16 oz mop weighs 16 OUNCES

All Finish Mops are made with  
WHITE HEADBANDS

# SSS Standard Wet Mops

Many daily maintenance applications can be handled just fine with our SSS Standard line of cut-end wet mops. We feature the finest quality yarn types available in the industry, made to the rigid specifications you expect from Triple S.

SSS Standard Wet Mops are manufactured in the most frequently used styles. We'll have the right wet mop for your job – whether you need narrow or wide headbands, fantails, or our popular screw type Sta-Flat construction.

All SSS Standard Wet Mops feature only FULL OUNCE NET WEIGHTS. We pledge that when you order a 20 ounce mop – from Triple S – you'll get a mop that weighs a FULL 20 OUNCES.

## SSS Launder-Rite Standard Blend Looped-End Wet Mops

*The contractor's choice for quality and performance.*

- 4-ply cotton/ rayon dref-spun yarn is ideal for everyday mopping.
- Not pre-laundered or pre-shrunk.
- Looped-end construction resists tangling.
- Single woven tailband provides wide surfaces span and even coverage.
- Long-lasting, double-wrapped mesh headbands.
- Headbands are color-coded by size.
- Launderable.

- Total PCC 42%
- PET% Content 19%

37421	19"	12	5
37422	21"	14	5

## SSS Scrub N' Clean Carpet Bonnets

- When cleaning carpet in high traffic areas, the SSS Scrub N' Clean Carpet Bonnet's unique design aggressively loosens soil and particle matter from deep within the carpet face and effectively removes it.
- SSS Scrub N' Clean's construction provides the dual action of durable polypropylene fibers and absorbent blended yarn.
- Non-abrasive scrubbing strips won't damage carpet while effectively dislodging dirt and grime.
- For use with standard low-speed rotary floor machines in an interim carpet maintenance program.

Item #	Size	lbs.	Case
36224	13"	5	5
36225	15"	8	5
36226	17"	10	5
36227	19"	12	5
36228	21"	14	5

## SSS MicroPower Carpet Bonnets

- Superior absorption.
- Polypropylene scrubber strips.
- Mounts easily to any standard low-speed rotary floor machine.
- Requires a smaller amount of chemicals and water.
- Launderable.

Item #	Size	lbs.	Case
37150	17"	8	5
37156	19"	9	5

## SSS Janitor Dusters

SSS Janitor Dusters combine the performance of our heavy-duty dust mops with the maneuverability of hand dusting. Whether the job is a quick “once over” or a “major attack” on venetian blinds, SSS Janitor Dusters can handle the task, and after a trip to the laundry—keep coming back for more. Made with Triple S Endless Twist looped-end yarn that won’t fray or unravel.

Item #	Type	lbs.	Case
37388	Hospital White	7	12
37390	Handle & Frame	6	12

## SSS Split Dusters

- SSS Split Dusters might possibly be the most versatile tools on your housekeeping cart!
- SSS Split Dusters are great time-savers, effectively cleaning hard-to-reach areas such as pipes, furniture legs, light fixtures, etc.
- Available in Hospital White or Safety Orange.
- SSS Split Dusters feature Triple S Endless Twist looped-end yarn so linting and fraying are never problems. Easy clean-up in any machine.

Item #	Type	lbs.	Case
