Pride in the U.S.A.

SEE THE BENEFITS

of the Force 14 Upright Vacuum

- Modular design and construction of the Force 14 makes maintenance fast and easy.
- A powerful 12 amp motor produces 74.8 inches of vacuum lift, cleaning carpets in just one pass. The motor is dust protected with an in-line filter for a reliable, long life.
- A separate 1.3 amp motor spins the roller brush bar at 4000 RPM. This motor is designed with overload protection, a non-slip drive belt and an electronic sensor to detect brush bar blockage or belt breaks.
- High-efficiency filtration collects the finest dust in a 4.75 quart, dual-wall micro-filtration bag.
- When the vacuum handle is in the upright position at startup, or when vacuum tools are being used, the roller brush motor automatically turns off to protect the carpet.
- The balanced center of the gravity gives the Force 14 a light handle weight and prevents tipping when using accessories.
- The telescopic wand with stretch hose extends up to 9-feet for easy cleaning of high, low and tight spaces.
- Manual, 4-position carpet height adjustment.
- The polished stainless steel glide plate lets the Force 14 ride gently on the carpet. Non-marking rear wheels make transport easy.
- Includes an upholstery brush, dusting brush and crevice tool.
- (1) 50-foot interchangeable safety power cord with strain relief.
- Warranty 2-years.

CLEAN CARPETS IN JUST ONE PASS!
